Ozark Secondary Schools

[STUDENT HANDBOOK FOR GRADES 8-12]
TO: Ozark School District Students
FROM: Lucas Skaggs, Assistant Superintendent
SUBJECT: Receipt of Ozark School District Discipline Policies

Act 104 of 1983 requires that school districts adopt written discipline policies that follow Arkansas Department of Education guidelines. The Arkansas Standards for Accreditation also require that the school shall have on file statements signed by parents and students that they have received an electronic and/or written copy of the school discipline policies.

Students are informed the student handbook is online and that it contains the Ozark School District Discipline Policies.

Please understand that if your child did not score proficient of advanced on any State mandated examination administered last year (2016-2017), he/she will participate in a remediation program administered by the Ozark Public Schools in order to satisfy state requirements.

This statement is required to be signed by both the Student and Parent/Guardian and turned in immediately.

This is to confirm that I have received a student handbook. If a written copy of the school discipline policy is requested, please check here: __________

PREFACE

The Ozark Public Schools publishes this handbook so that new students may be able to make quicker and better adjustments to their new school home and so students already enrolled may become more acquainted with the policies and traditions of the Ozark Schools. It is the responsibility of each student and his/her parents to become thoroughly familiar with all operational procedures contained within this handbook since they serve as the guidelines for student responsibilities, conduct, and consequences of violations.

WELCOME

The Ozark Public School and its employees would like to welcome you to our school district. To you who have been in our school before, we hope that your experiences have been happy and educational. To you who are entering schools for the first time, we hope that you will find our students and teachers friendly and helpful. To all of you, the staff would like to make your years here profitable. We want to offer you the educational opportunities that will best prepare you for the days ahead.

PHILOSOPHY OF
OZARK SCHOOL DISTRICT #14

We believe that the public schools today help perpetuate our democracy; that our schools are for all children and must, therefore, accept each child as he/she is and make every effort to meet his/her specific and individual needs in order to help him/her become as intellectually competent as possible in our ever-changing technical, social and political world. We believe it is imperative that each child be developed to the utmost of his/her physical, mental, social, emotional and spiritual capacity.

Our belief is that the public schools should strive to see that each child acquires the basic skills and knowledge on which to base new judgments. We believe that the public schools should seek to develop good work habits and to provide an atmosphere conducive to the learning process.

It is our belief that a public school system is essential to the continuation of a free democratic way of life. We further believe that the function of the public schools is to provide students with the necessary information and skills that will enable them to be an effective and useful member in a free society.

No student in the Ozark School District shall, on the grounds of race, color, religion, national origin, sex, age, or disability be excluded from participation in, or denied the benefits of, or subjected to discrimination under any educational program or activity sponsored by the District. The District has a limited open forum granting equal access to the Boy Scouts of America and other youth groups.

Inquiries on nondiscrimination may be directed to the Assistant Superintendent, who may be reached at 479-667-4118.

For further information on notice of non-discrimination or to file a complaint, visit http://wdcroborc01.ed.gov/CFAPPS/OCR/contactus.cfm; for the address and phone number of the office that serves your area, or call 1-800-421-3481.

GENERAL OBJECTIVES

In accordance with the stated philosophy of the Ozark Public Schools, the objectives of the Ozark Schools are as follows:

To provide a learning atmosphere in which students may develop their talents, abilities, needs, interests, and discover their weaknesses.

To provide a program which will help students understand the importance of mental and physical health.

To provide opportunities for students to develop the ability to work and live cooperatively.

To create in the students a favorable attitude toward the democratic process of law and order.

To help students understand their present and future role as consumers/producers.

To encourage each student to develop a sense of values and worthwhile ideas.

To teach students to budget their time with emphasis on the wise use of leisure time.

To afford students an opportunity to enjoy a well-rounded life by cultivating his/her appreciation for good literature, art, music, and physical activities.

To maintain open communication between the school and the community.

To instill in students, the idea that in a democratic society, one must accept his/her responsibilities as well as his/her rights.

To develop in students an awareness that they must be responsible for their own actions.

Pledge of Allegiance. The Pledge of Allegiance shall be recited during the first class period of each school day. Those students choosing to participate shall do so by facing the flag with their right hands over their hearts, or in an appropriate salute if in uniform, while reciting the Pledge. Students choosing not to participate shall be quiet while either standing or sitting at their desks.
Students shall not be compelled to recite the Pledge, but students who choose not to recite the Pledge shall not disrupt those students choosing to recite the Pledge. Students choosing not to recite the Pledge shall not be subject to any comments, retaliation, or disciplinary action.

**Moment of silence.** A moment of silence (approximately 1 minute) will follow the Pledge of Allegiance each day. Students will be under no obligation to be directed to do anything against their will during this moment of silence. They will not be allowed to disrupt other student’s right to this moment of silence.

**SCHOOL CONDUCT**

**Who is Responsible for Student Conduct?** Freedom is a Constitutional right, but it does not mean the absence of reasonable rules and regulations, which serve to guide the actions of individuals. Along with freedom comes the responsibility to act in such manner as to insure that all participants may enjoy the same freedom. To obtain the greatest possible benefit to the students, teachers, administrators, parents, and the entire community, it is essential that all work together to insure that all persons are treated equally and with dignity in respect to their rights and responsibilities.

**Students.** Students have a responsibility to pursue their education in the Ozark School District in a manner that shows respect for other students, faculty members, parents, and other citizens. Students share a responsibility to cooperate with and assist the school staff, helping to make their school the best it can be. Each student is responsible for his/her own conduct at all times.

**Parents or Guardians.** Parents or guardians are responsible for exercising the required controls so that their children’s behavior at school will help their own progress and not be disruptive to the school’s education program. They are responsible for alerting school personnel when they have reason to believe that their children are experiencing difficulties at school, so that behavior standards may be maintained.

**Teachers.** All teachers are responsible for the supervision of all students in the school. This includes not only the students who are regularly assigned to the teacher but all other students with whom the teacher comes in contact. Each teacher is expected to maintain the kind of atmosphere that will promote the learning process, and to utilize sound educational techniques. These techniques include conferences with students and parents, referral to counselors at the school or referral to other supportive service personnel of the district (nurse, attendance caseworker, school resource officer, etc.) When the teacher is unable to assist the student in maintaining proper control, the student is to be referred to the appropriate administrator in the school.

**Principals.** The principal of each school is expected to communicate to all students the rules and regulations. The principal is expected to involve representatives of the teaching staff, the student body, and the patrons of the school in developing the student discipline policies. The principal of each school is responsible for conducting continued in-service education for all personnel on a regular basis to interpret and implement established policies. The principal has the right to suspend and may request the superintendent to recommend a student for expulsion to the Board of Education. The principal is expected to inform the parents or guardians of any student whose behavior is in serious conflict with established laws, rules, and procedures.

**PERMANENT RECORDS**

Permanent school records, as required by the Arkansas Department of Education, shall be maintained for each student enrolled in the District until the student receives a high school diploma or its equivalent or is beyond the age of compulsory school attendance. A copy of the student’s permanent record shall be provided to the receiving school district within ten (10) school days after the date a request from the receiving school district is received.

**DEFINITIONS**

Suspension from school. Students who are not present at school cannot benefit from the educational opportunities the school environment affords. Administrators, therefore, shall strive to find ways to keep students in school as participants in the educational process. There are instances, however, when the needs of the other students or the interests of the orderly learning environment require the removal of a student from school. The Board authorizes school principals or their designees to suspend students for disciplinary reasons for a period of time not to exceed ten (10) school days¹, including the day upon which the suspension is imposed. The suspension may be in school or out of school. Students are responsible for their conduct that occurs:

- At any time on the school grounds;
- Off school grounds at a school-sponsored function, activity, or event; and
- Going to and from school or a school activity.

A student may be suspended for behavior including, but not limited to that which:

1. Is in violation of school policies, rules, or regulations;
2. Substantially interferes with the safe and orderly educational environment;
3. School administrators believe will result in the substantial interference with the safe and orderly educational environment; and/or
4. Is insubordinate, incorrigible, violent, or involves moral turpitude.

Out-of-school suspension shall not be used to discipline a student for skipping class, excessive absences, or other forms of truancy.

The school principal or designee shall proceed as follows in deciding whether or not to suspend a student:

- the student shall be given written notice or advised orally of the charges against him/her;
- if the student denies the charges, he/she shall be given an explanation of the evidence against him/her and be allowed to present his/her version of the facts; and
- if the principal finds the student guilty of the misconduct, he/she may be suspended.

¹ Including the day of the misconduct.
When possible, notice of the suspension, its duration, and any stipulations for the student’s re-admittance to class will be given to the parent(s), legal guardian(s), or to the student if age eighteen (18) or older prior to the suspension. Such notice shall be handed to the parent(s), legal guardian(s), or to the student if age eighteen (18) or older or mailed to the last address reflected in the records of the school district.

Generally, notice and hearing should precede the student's removal from school, but if prior notice and hearing are not feasible, as where the student's presence endangers persons or property or threatens disruption of the academic process, thus justifying immediate removal from school, the necessary notice and hearing should follow as soon as practicable.

It is the parent(s)' or legal guardians’ responsibility to provide current contact information to the district, which the school shall use to immediately notify the parent or legal guardian upon the suspension of a student. The notification shall be by one of the following means, listed in order of priority:

- A primary call number;
  - The contact may be by voice, voice mail, or text message.
- An email address;
- A regular first class letter to the last known mailing address.

The district shall keep a log of contacts attempted and made to the parent or legal guardian.

During the period of their suspension, students serving out-of-school suspensions are not permitted on campus except to attend a student/parent/administrator conference. During the period of their suspension, students serving in-school suspension shall not attend or participate in any school-sponsored activities during the imposed suspension. Suspensions initiated by the principal or his/her designee may be appealed to the Superintendent, but not to the Board. Suspensions initiated by the Superintendent may be appealed to the Board.

Expulsion. The Board of Education may expel a student for a period longer than ten (10) school days for violation of the District’s written discipline policies. The Superintendent may make a recommendation of expulsion to the Board of Education for student conduct:

- Deemed to be of such gravity that suspension would be inappropriate;
- Where the student’s continued attendance at school would disrupt the orderly learning environment; or
- Would pose an unreasonable danger to the welfare of other students or staff.

Expulsion shall not be used to discipline a student in kindergarten through fifth (5th) grade unless the student's behavior:

- Poses a physical risk to himself or herself or to others;
- Causes a serious disruption that cannot be addressed through other means; or
- Is the act of bringing a firearm on school campus.

The Superintendent or his/her designee shall give written notice to the parents or legal guardians (mailed to the address reflected on the District’s records) that he/she will recommend to the Board of Education that the student be expelled for the specified length of time and state the reasons for the recommendation to expel. The notice shall give the date, hour, and place where the Board of Education will consider and dispose of the recommendation.

The hearing shall be conducted not later than ten (10) school days following the date of the notice, except that representatives of the Board and student may agree in writing to a date not conforming to this limitation.

The President of the Board, Board attorney, or other designated Board member shall preside at the hearing. The student may choose to be represented by legal counsel. Both the district administration and School Board also may be represented by legal counsel. The hearing shall be conducted in open session of the Board unless the parent, or student if age 18 or older, requests that the hearing be conducted in executive session. Any action taken by the Board shall be in open session.

During the hearing, the Superintendent, or designee, or representative will present evidence, including the calling of witnesses that gave rise to the recommendation of expulsion. The student, or his/her representative, may then present evidence including statements from persons with personal knowledge of the events or circumstances relevant to the charges against the student. Formal cross-examination will not be permitted. However, any member of the Board, the Superintendent, or designee, the student, or his/her representative may question anyone making a statement and/or the student. The presiding officer shall decide questions concerning the appropriateness or relevance of any questions asked during the hearing.

Except as permitted by policy 4.22, the Superintendent shall recommend the expulsion of any student for a period of not less than one (1) year for possession of any firearm prohibited on school campus by law. The Superintendent shall, however, have the discretion to modify the expulsion recommendation for a student on a case-by-case basis. Parents or legal guardians of a student enrolling from another school after the expiration of an expulsion period for a weapons policy violation shall be given a copy of the current laws regarding the possibility of parental responsibility for allowing a child to possess a weapon on school property. The parents or legal guardians shall sign a statement acknowledging that they have read and understand said laws prior to the student being enrolled in school.

The Superintendent and the Board of Education shall complete the expulsion process of any student that was initiated because the student possessed a firearm or other prohibited weapon on school property regardless of the enrollment status of the student.
Loitering by Students Suspended from School, Students suspended or expelled from school are prohibited from being in any school building or on any school grounds during the time of their suspension or expulsion unless a prearranged conference has been scheduled through the principal or his/her designee.

ATTENDANCE

State law requires that school age children shall attend school in accordance with Board of Education policies and individual school procedures. Students who are absent from school should be aware of the following guidelines:

Regular attendance is necessary if students are to reach their full potential. The Ozark School District believes that it is the responsibility of parents to ensure that their children are in school. It is reasonable to assume that children will be ill from time to time, but it is not reasonable to assume that they will need to miss school more than twelve times during the semester. Therefore, students may not be promoted or receive credit if they exceed twelve absences without extenuating circumstances. Extenuating circumstances include prolonged illness, hospitalization, or other reasons determined by the principal.

COMPULSORY ATTENDANCE REQUIREMENTS

Every parent, guardian, or other person having custody or charge of any child age five (5) through seventeen (17) years on or before August 1 of that year who resides, as defined by policy (4.1—RESIDENCE REQUIREMENTS), within the District shall enroll and send the child to a District school with the following exceptions.

1. The child is enrolled in private or parochial school.
2. The child is being home-schooled and the conditions of policy (4.6—HOME SCHOOLING) have been met.
3. The child will not be age six (6) on or before August 1 of that particular school year and the parent, guardian, or other person having custody or charge of the child elects not to have him/her attend kindergarten. A kindergarten waiver form prescribed by regulation of the Department of Education must be signed and on file with the District administrative office.
4. The child has received a high school diploma or its equivalent as determined by the State Board of Education.
5. The child is age sixteen (16) or above and is enrolled in a post-secondary vocational-technical institution, a community college, or a two-year or four-year institution of higher education.
6. The child is age sixteen (16) or seventeen (17) and has met the requirements to enroll in an adult education program as defined by A.C.A. § 6-18-201 (b).

STUDENT TRANSFERS

The Ozark School District shall review and accept or reject requests for transfers, both into and out of the district, on a case by case basis at the June, August, and December and board meetings.

The District may reject a nonresident’s application for admission if its acceptance would necessitate the addition of staff or classrooms exceed the capacity of a program, class, grade level, or school building, or cause the District to provide educational services not currently provided in the affected school. The District shall reject applications that would cause it to be out of compliance with applicable laws and regulations regarding desegregation.

Any student transferring from a school accredited by the Department of Education to a school in this district shall be placed into the same grade the student would have been in had the student remained at the former school. Any grades, course credits, and/or promotions received by a student while enrolled in the Division of Youth Services system of education shall be considered transferable in the same manner as those grades, course credits, and promotions from other accredited Arkansas public educational entities.

Any student transferring from home school or a school that is not accredited by the Department of Education to a District school shall be evaluated by District staff to determine the student’s appropriate grade placement. A student transferring from home school will be placed in accordance with Policy 4.6—HOME SCHOOLING.

The Board of Education reserves the right, after a hearing before the Board, not to allow any person who has been expelled from another district to enroll as a student until the time of the person’s expulsion has expired.

Except as otherwise required or permitted by law, the responsibility for transportation of any nonresident student admitted to a school in this District shall be borne by the student or the student’s parents. The District and the resident district may enter into a written agreement with the student or student’s parents to provide transportation to or from the District, or both.

SCHOOL CHOICE

Standard School Choice

Exemption

The District is under an enforceable desegregation court order/court-approved desegregation plan that explicitly limits the transfer of students between school districts and has submitted the appropriate documentation to the Arkansas Department of Education (ADE). As a result of the desegregation order/desegregation plan, the District is exempt from the provisions of the Public School Choice Act of 2015 (Standard School Choice) and the Arkansas Opportunity Public School
Choice Act of 2004 (Opportunity School Choice). The District shall notify the superintendents of each of its geographically contiguous school districts of its exemption. The exemption prohibits the District from accepting any school choice applications from students wishing to transfer into or out of the District through standard School Choice or Opportunity School Choice.

Definition

"sibling" means each of two (2) or more children having a common parent in common by blood, adoption, marriage, or foster care.

Transfers into the District

Capacity Determination and Public Pronouncement

The Board of Directors will adopt a resolution containing the capacity standards for the District. The resolution will contain the acceptance determination criteria identified by academic program, class, grade level, and individual school. The school is not obligated to add any teachers, other staff, or classrooms to accommodate choice applications. The District may only deny a Standard School Choice application if the District has a lack of capacity by the District having reached ninety percent (90%) of the maximum student population in a program, class, grade level, or school building authorized by the Standards or other State/Federal law.

The District shall advertise in appropriate broadcast media and either print media or on the Internet to inform students and parents in adjoining districts of the range of possible openings available under the School Choice program. The public pronouncements shall state the application deadline and the requirements and procedures for participation in the program. Such pronouncements shall be made in the spring, but in no case later than March 1.

Application Process

The student's parent shall submit a school choice application on a form approved by ADE to this district. The transfer application must be postmarked or hand delivered on or before May 1 of the year preceding the fall semester the applicant would begin school in the District. The District shall date and time stamp all applications as they are received in the District's central office. It is the District's responsibility to send a copy of the application that includes the date and time stamp to the student's resident district within 10 days of the district receiving the application. Applications postmarked or hand delivered on or after May 2 will not be accepted. Statutorily, preference is required to be given to siblings of students who are already enrolled in the District. Therefore, siblings whose applications fit the capacity standards approved by the Board of Directors may be approved ahead of an otherwise qualified non-sibling applicant who submitted an earlier application as identified by the application's date and time stamp.

The approval of any application for a choice transfer into the District is potentially limited by the applicant's resident district's statutory limitation of losing no more than three percent (3%) of its past year's student enrollment due to Standard School Choice. As such, any District approval of a choice application prior to July 1 is provisional pending a determination that the resident district's three percent (3%) cap has not been reached.

The Superintendent will consider all properly submitted applications for School Choice. By July 1, the Superintendent shall notify the parent and the student's resident district, in writing, of the decision to accept or reject the application.

Accepted Applications

Applications which fit within the District's stated capacity standards shall be provisionally accepted, in writing, with the notification letter stating a reasonable timeline by which the student shall enroll in the District by taking the steps detailed in the letter, including submission of all required documents. If the student fails to enroll within the stated timeline, or if all necessary steps to complete the enrollment are not taken, or examination of the documentation indicates the applicant does not meet the District's stated capacity standards, the acceptance shall be null and void.

A student, whose application has been accepted and who has enrolled in the District, is eligible to continue enrollment until completing his/her secondary education. Continued enrollment is conditioned upon the student meeting applicable statutory and District policy requirements. Any student who has been accepted under choice and who either fails to initially enroll under the timelines and provisions provided in this policy or who chooses to return to his/her resident district voids the transfer and must reapply if, in the future, the student seeks another school choice transfer. A subsequent transfer application will be subject to the capacity standards applicable to the year in which the application is considered by the District.

A present or future sibling of a student who continues enrollment in this District may enroll in the District by submitting a Standard School Choice application. Applications of siblings of presently enrolled choice students are subject to the provisions of this policy including the capacity standards applicable to the year in which the sibling's application is considered by the District. A sibling who enrolls in the District through Standard School choice is eligible to remain in the District until completing his/her secondary education.

Students whose applications have been accepted and who have enrolled in the district shall not be discriminated against on the basis of gender, national origin, race, ethnicity, religion, or disability.

Rejected Applications

The District may reject an application for a transfer into the District under Standard School Choice due to a lack of capacity. However, the decision to accept or reject an application may not be based on the student's previous academic achievement, athletic or other extracurricular ability, English proficiency level, or previous disciplinary proceedings other than a current expulsion.

An application may be provisionally rejected if it is for an opening that was included in the District's capacity resolution, but was provisionally filled by an earlier applicant. If the provisionally approved applicant subsequently does not enroll in the District, the provisionally rejected applicant could be provisionally approved and would have to meet the acceptance requirements to be eligible to enroll in the district.
Rejection of applications shall be in writing and shall state the reason(s) for the rejection. A student whose application was rejected may request a hearing before the State Board of Education to reconsider the application which must be done, in writing to the State Board within ten (10) days of receiving the rejection letter from the District.

Any applications that are denied due to the student’s resident district reaching the three percent (3%) limitation cap shall be given priority for a choice transfer the following year in the order that the District received the original applications.

Transfers Out of the District

All Standard School Choice applications shall be granted unless the approval would cause the District to have a net enrollment loss (students transferring out minus those transferring in) of more than three percent (3%) of the average daily membership on October 15 of the immediately preceding year. By December 15 of each year, ADE shall determine and notify the District of the net number of allowable choice transfers. For the purpose of determining the three percent (3%) cap, siblings are counted as one student, and students are not counted if the student transfers from a school or district in:

- Academic Distress under either A.C.A. § 6-15-430(o)(1) or A.C.A. § 6-18-227; or
- Facilities Distress under A.C.A. § 6-21-812.

If, prior to July 1, the District receives sufficient copies of requests from other districts for its students to transfer to other districts to trigger the three percent (3%) cap, it shall notify each district the District received Standard School Choice applications from that it has tentatively reached the limitation cap. The District will use confirmations of approved choice applications from receiving districts to make a final determination of which applications it received that exceeded the limitation cap and notify each district that was the recipient of an application to that effect.

Facilities Distress School Choice Applications

There are a few exceptions from the provisions of the rest of this policy that govern choice transfers triggered by facilities distress. Any student attending a school district that has been identified as being in facilities distress may transfer under the provisions of this policy, but with the following four (4) differences.

- The receiving district cannot be in facilities distress;
- The transfer is only available for the duration of the time the student’s resident district remains in distress;
- The student is not required to meet the June 1 application deadline; and
- The student’s resident district is responsible for the cost of transporting the student to this District's school.

Opportunity School Choice Transfers into or Within the District

For the purposes of this section of the policy, a “lack of capacity” is defined as when the receiving school has reached the maximum student-to-teacher ratio allowed under federal or state law, the ADE Rules for the Standards of Accreditation, or other applicable rules. There is a lack of capacity if, as of the date of the application for Opportunity School Choice, ninety-five percent (95%) or more of the seats at the grade level at the nonresident school are filled.

Unless there is a lack of capacity at the District’s school or the transfer conflicts with the provisions of a federal desegregation order applicable to the District, a student who is enrolled in or assigned to a school classified by the ADE to be in academic distress is eligible to transfer to the school closest to the student’s legal residence that is not in academic distress. The student's parent or guardian, or the student if over the age of eighteen (18), must successfully complete the necessary application process by July 30 preceding the initial year of desired enrollment.

Within thirty (30) days from receipt of an application from a student seeking admission under this section of the policy, the Superintendent shall notify in writing the parent or guardian, or the student if the student is over eighteen (18) years of age, whether the Opportunity School Choice application has been accepted or rejected. The notification shall be sent via First-Class Mail to the address on the application.

If the application is accepted, the notification letter shall state the deadline by which the student must enroll in the receiving school or the transfer will be null and void.

If the District rejects the application, the District shall state in the notification letter the specific reasons for the rejection. A parent or guardian, or the student if the student is over eighteen (18) years of age, may appeal the District’s decision to deny the application to the State Board of Education. The appeal must be in writing to the State Board of Education via certified mail, return receipt requested, no later than ten (10) calendar days, excluding weekends and legal holidays, after the notice of rejection was received from the District.

A student’s enrollment under Opportunity School Choice is irrevocable for the duration of the school year and is renewable until the student completes high school or is beyond the legal age of enrollment. This provision for continuing eligibility under Opportunity School Choice does not negate the student’s right to apply for transfer to a district other than the student's assigned school or resident district under the Standard School Choice provisions of this policy.

The District may, but is not obligated to provide transportation to and from the transferring district.

Transfers out of, or within, the District

If a District school or the District has been classified by the ADE as being in academic distress the District shall timely notify the parent, guardian, or student, if the student is over eighteen (18) years of age, as soon as practicable after the academic distress designation is made of all options available under Opportunity Choice. The District shall offer the parent or guardian, or the student if the student is over eighteen (18) years of age, an opportunity to enroll the student in any public school or school district that has not been classified by the ADE as a public school or school district in academic distress.

Additionally, the District shall request public service announcements to be made over the broadcast media and in the print media at such times and in such a manner as to inform parents or guardians of students in adjoining districts of the availability of the program, the application deadline, and the requirements and procedure for nonresident students to participate in the program.

Unsafe School Choice Program
Any student who becomes the victim of a violent criminal offense while in or on the grounds of a District school or who is attending a school classified by ADE as a persistently dangerous public school shall be allowed to attend a safe public school within the District.

**ABSCENCES**

If any student’s Individual Education Program (IEP) or 504 Plan conflicts with this policy, the requirements of the student’s IEP or 504 Plan take precedence.

Education is more than the grades students receive in their courses. Important as that is, students’ regular attendance at school is essential to their social and cultural development and helps prepare them to accept responsibilities they will face as an adult. Interactions with other students and participation in the instruction within the classroom enrich the learning environment and promote a continuity of instruction which results in higher student achievement.

Absences for students enrolled in digital courses shall be determined by the online attendance and time the student is working on the course rather than the student’s physical presence at school. Students who are scheduled to have a dedicated period for a digital class shall not be considered absent if the student logs the correct amount of time and completes any required assignments; however, a student who fails to be physically present for an assigned period may be disciplined in accordance with the District’s truancy policy.

**Excused Absences**

Excused absences are those where the student was on official school business or when the absence was due to one of the following reasons and the student brings a written statement to the principal or designee upon his/her return to school from the parent or legal guardian stating such reason. A written statement presented for an absence having occurred more than five (5) school days prior to its presentation will not be accepted.

A. The student’s illness or when attendance could jeopardize the health of other students. A maximum of six (6) such days are allowed per semester unless the condition(s) causing such absences is of a chronic or recurring nature, is medically documented, and approved by the principal.

B. Death or serious illness in their immediate family;

C. Observance of recognized holidays observed by the student’s faith;

D. Attendance at an appointment with a government agency;

E. Attendance at a medical appointment;

F. Exceptional circumstances with prior approval of the principal; or

G. Participation in an FFA, FHA, or 4-H sanctioned activity;

H. Participation in the election poll workers program for high school students.

I. Absences granted to allow a student to visit his/her parent or legal guardian who is a member of the military and been called to active duty, is on leave from active duty, or has returned from deployment to a combat zone or combat support posting. The number of additional excused absences shall be at the discretion of the superintendent or designee.

J. Absences granted, at the Superintendent’s discretion, to seventeen (17) year-old students who join the Arkansas National Guard while in eleventh grade to complete basic combat training between grades eleven (11) and (12).

Students who serve as pages for a member of the General Assembly shall be considered on instructional assignment and shall not be considered absent from school for the day the student is serving as a page.

It is the Arkansas General Assembly’s intention that students having excessive absences be given assistance in obtaining credit for their courses. Excessive absences may, however, be the basis for the denial of course credit, promotion, or graduation.

**Unexcused Absences**

Absences not defined above or not having an accompanying note from the parent or legal guardian, presented in the timeline required by this policy, may be considered as unexcused absences. Students with (6) unexcused absences in a course in a semester may not receive credit for that course. At the discretion of the principal after consultation with persons having knowledge of the circumstances of the unexcused absences, the student may be denied promotion or graduation. Excessive absences shall not be a reason for expulsion or dismissal of a student.

When a student has (3) unexcused absences, his/her parents, guardians, or persons in loco parentis shall be notified. Notification shall be by telephone by the end of the school day in which such absence occurred or by regular mail with a return address sent no later than the following school day.

Whenever a student exceeds (6) unexcused absences in a semester, the District shall notify the prosecuting authority and the parent, guardian, or persons in loco parentis shall be subject to a civil penalty as prescribed by law.

It is the Arkansas General Assembly’s intention that students having excessive absences be given assistance in obtaining credit for their courses. Therefore, at any time prior to when a student exceeds the number of unexcused absences permitted by this policy, the student, or his/her parent, guardian, or person in loco parentis may petition the school or district’s administration for special arrangements to address the student’s unexcused absences. If formal arrangements are granted, they shall be formalized into a written agreement which will include the conditions of the agreement and the consequences for failing to fulfill the agreement’s requirements. The agreement shall be signed by the student, the student’s parent, guardian, or person in loco parentis, and the school or district administrator or designee.

Students who attend in-school suspension shall not be counted absent for those days.

Days missed due to out-of-school suspension or expulsion shall not be unexcused absences.
The District shall notify the Department of Finance and Administration whenever a student fourteen (14) years of age or older is no longer in school. The Department of Finance and Administration is required to suspend the former student’s operator's license unless he/she meets certain requirements specified in the statute.

Applicants for an instruction permit or for a driver's license by persons less than eighteen (18) years old on October 1 of any year are required to provide proof of a high school diploma or enrollment and regular attendance in an adult education program or a public, private, or parochial school prior to receiving an instruction permit. To be issued a driver's license, a student enrolled in school shall present proof of a “C” average for the previous semester or similar equivalent grading period for which grades are reported as part of the student’s permanent record.

TARDIES

Promptness is an important character trait that District staffs are encouraged to model and help develop in our schools’ students. At the same time, promptness is the responsibility of each student. Students who are late to class show a disregard for both the teacher and their classmates which compromises potential student achievement. A tardy is an absence from part of a class period without written permission from school personnel.

Tardiness will be accounted for by individual teachers. Beginning with the 4th tardy, in school suspension, or out of school suspension will be assigned. For students that drive to school and are tardy in the 1st period, driving privileges will be lost for 2 days on the 4th tardy. This will increase by 2 days for each succeeding tardy.

8th graders – 11th graders must attend school all day unless an exception is granted by the administration.

Make-Up Work Policy

Students who miss school due to an excused absence shall be allowed to make up the work they missed during their absence under the following rules.

1. Students are responsible for asking the teachers of the classes they missed what assignments they need to make up. In lower grades the teacher should make sure the student is aware of the assignments that need to be made up.

2. Teachers are responsible for providing the missed assignments when asked by a returning student.

3. Students are required to ask for their assignments on their first day back at school or their first class day after their return.

4. Make-up tests are to be rescheduled at the discretion of the teacher, but must be aligned with the schedule of the missed work to be made up.

5. Students shall have one class day to make up their work for each class day they are absent.

6. Make-up work which is not turned in within the make-up schedule for that assignment shall receive a zero unless prior arrangements have been made with the teacher.

7. Students are responsible for turning in their make-up work without the teacher having to ask for it, exceptions should be made for students in lower grades. The teacher needs to make sure the child makes up their work.

8. Students who are absent on the day their make-up work is due must turn in their work the day they return to school whether or not the class for which the work is due meets the day of their return.

9. As required/permitted by the student’s Individual Education Program or 504 Plan.

Work may not be made up for credit for unexcused absences unless the unexcused absences are part of a signed agreement as permitted by policy 4.7—ABSENCES.

Work missed while a student is expelled from school may not be made up for credit and students shall receive a zero for missed assignments.

In lieu of the timeline above, assignments for students who are excluded from school by the Arkansas Department of Health during a disease outbreak are to be made up as set forth in Policy 4.57—IMMUNIZATIONS.

SEARCH, SEIZURE, AND INTERROGATIONS

The District respects the rights of its students against arbitrary intrusion of their person and property. At the same time, it is the responsibility of school officials to protect the health, safety, and welfare of all students enrolled in the District in order to promote an environment conducive to student learning. The Superintendent, principals, and their designees have the right to inspect and search school property and equipment. They may also search students and their personal property in which the student has a reasonable expectation of privacy, when there is reasonable and individualized suspicion to believe such student or property contains illegal items or other items in violation of Board policy or dangerous to the school community. School authorities may seize evidence found in the search and disciplinary action may be taken. Evidence found which appears to be in violation of the law shall be reported to the appropriate authority.

School property shall include, but not be limited to, lockers, desks, and parking lots, as well as personal effects left there by students. When possible, prior notice will be given and the student will be allowed to be present along with an adult witness, however, searches may be done at any time with or without notice or the student’s consent. A personal search must not be excessively intrusive in light of the age and sex of the student and the nature of the infraction.

The Superintendent, principals, and their designees may request the assistance of law enforcement officials to help conduct searches. Such searches may include the use of specially trained dogs.
A school official of the same sex shall conduct personal searches with an adult witness of the same sex present.

State Law requires that Department of Human Services employees, local law enforcement, or agents of the Crimes Against Children Division of the Department of Arkansas State Police, may interview students without a court order for the purpose of investigating suspected child abuse. In instances where the interviewers deem it necessary, they may exercise a “72-hour hold” without first obtaining a court order. Other questioning of students by non-school personnel shall be granted only with a court order directing such questioning, with permission of the parents of a student (or the student if above eighteen [18] years of age), or in response to a subpoena or arrest warrant.

If the District makes a report to any law enforcement agency concerning student misconduct or if access to a student is granted to a law enforcement agency due to a court order, the principal or the principal's designee shall make a good faith effort to contact the student's parent, legal guardian, or other person having lawful control by court order, or person acting in loco parentis on student enrollment forms. The principal or the principal’s designee shall not attempt to make such contact if presented documentation by the investigator that notification is prohibited because a parent, guardian, custodian, or person standing in loco parentis is named as an alleged offender of the suspected child maltreatment. This exception applies only to interview requests made by a law enforcement officer, an investigator of the Crimes Against Children Division of the Department of Arkansas State Police, or an investigator or employee of the Department of Human Services.

In instances other than those related to cases of suspected child abuse, principals must release a student to either a police officer who presents a subpoena for the student, or a warrant for arrest, or to an agent of state social services or an agent of a court with jurisdiction over a child with a court order signed by a judge. Upon release of the student, the principal or designee shall give the student’s parent, legal guardian, or other person having lawful control by court order or person acting in loco parentis notice that the student has been taken into custody by law enforcement personnel or a state’s social services agency. If the principal or designee is unable to reach the parent, he or she shall make a reasonable, good faith effort to get a message to the parent to call the principal or designee, and leave both a day and an afterhours telephone number.

STANDARDS OF CONDUCT

All students are expected to conduct themselves in a manner that will contribute to the best interest of the school and not infringe on the rights of others. School staff members have authority, and the responsibility to take customary and reasonable measures to maintain proper control and discipline among students placed under their care and supervision. Such measures may include the use of reasonable force in the exercise of lawful authority to restrain or correct students and maintain order.

A student who is well informed concerning his/her rights and responsibilities and the standards of behavior expected should not require disciplinary action. For the information of all students, however, infractions to avoid and recommended disciplinary actions are presented as follows.

STUDENT DISCIPLINE AND INFRINGEMENTS TO AVOID

The Ozark Board of Education has a responsibility to protect the health, safety, and welfare of the District's students and employees. To help maintain a safe environment conducive to high student achievement, the Board establishes policies necessary to regulate student behavior to promote an orderly school environment that is respectful of the rights of others and ensures the uniform enforcement of student discipline. Students are responsible for their conduct that occurs: at any time on the school grounds; off school grounds at a school sponsored function, activity, or event; going to and from school or a school activity.

The District’s administrators may also take disciplinary action against a student for off-campus conduct occurring at any time that would have a detrimental impact on school discipline, the educational environment, or the welfare of the students and/or staff. A student who has committed a criminal act while off campus and whose presence on campus could cause a substantial disruption to school or endanger the welfare of other students or staff is subject to disciplinary action up to and including expulsion. Such acts could include, but are not limited to a felony or an act that would be considered a felony if committed by an adult, an assault or battery, drug law violations, or sexual misconduct of a serious nature. Any disciplinary action pursued by the District shall be in accordance with the student’s appropriate due process rights.

The District’s personnel policy committee shall review the student discipline policies annually and may recommend changes in the policies to the Ozark School Board. The Board shall approve any changes to student discipline policies.

The District's student discipline policies shall be distributed to each student during the first week of school each year and to new students upon their enrollment. Each student's parent or legal guardian shall sign and return to the school an acknowledgement form documenting that they have received the policies.

It is required by law that the principal or the person in charge reports to the police any incidents where a person has committed or threatened to commit an act of violence or any crime involving a deadly weapon on school property or while under school supervision.

The following activities are considered improper conduct and will subject the student to disciplinary action, including, but not limited to, suspension or expulsion from school, and/or notification of law enforcement officials. The violation of a rule will occur whether the conduct takes place on the school grounds, off the school grounds at a school supervised activity, function, or event, or in route to and from school.

Below each rule is a standardized list of disciplinary actions to be taken. Normally, this list will be adhered to in numerical order after each occurrence. However, the administration may exercise more extreme action in more severe situations or in situations in which a student has been involved in other rule infractions. Corporal punishment may be used for any of the following infractions in accordance with the corporal punishment policy. School rules listed under standards of conduct have been placed into six groups. The rules covered under each group have been clearly stated and in most cases will carry the same penalty as any other rule in the group.

Anyone in violation of school discipline policies may receive disciplinary action ranging from a minimum of a verbal reprimand to a maximum of expulsion and/or criminal prosecution.
CORPORAL PUNISHMENT

The Ozark School Board authorizes the use of corporal punishment to be administered in accordance with this policy by the Superintendent or his/her designated staff members who are required to have a state-issued certificate as a condition of their employment.

Prior to the administration of corporal punishment, the student receiving the corporal punishment shall be given an explanation of the reasons for the punishment and be given an opportunity to refute the charges.

All corporal punishment shall be administered privately, i.e. out of the sight and hearing of other students, and shall be administered in the presence of another certified staff member as a witness, shall not be excessive, or administered with malice.

VIDEO SURVEILLANCE AND OTHER STUDENT MONITORING

The Board of Directors has a responsibility to maintain discipline, protect the safety, security, and welfare of its students, staff, and visitors while at the same time safeguarding district facilities, vehicles, and equipment. As part of fulfilling this responsibility, the board authorizes the use of video/audio surveillance cameras, automatic identification technology, data compilation devices, and technology capable of tracking the physical location of district equipment, students, and/or personnel.

The placement of video/audio surveillance cameras shall be based on the presumption and belief that students, staff and visitors have no reasonable expectation of privacy anywhere on or near school property, facilities, vehicles, or equipment, with the exception of places such as rest rooms or dressing areas where an expectation of bodily privacy is reasonable and customary.

Signs shall be posted on campus buildings and in district vehicles to notify students, staff, and visitors that video cameras may be in use. Parents and students shall also be notified through the student handbook that cameras may be in use in school buildings, on school grounds and in school vehicles. Students will be held responsible for any violations of school discipline rules caught by the cameras and other technologies authorized in this policy.

The district shall retain copies of video recordings until they are erased which may be accomplished by either deletion or copying over with a new recording. Other than video recordings being retained under the provisions of this policy’s following paragraph, the district’s video recordings may be erased any time greater than 10 after they were created.

Videos, automatic identification, or data compilations containing evidence of a violation of student conduct rules and/or state or federal law shall be retained until the issue of the misconduct is no longer subject to review or appeal as determined by board policy or student handbook; any release or viewing of such records shall be in accordance with current law.

Students who vandalize, damage, disable, or render inoperable (temporarily or permanently) surveillance cameras and equipment, automatic identification, or data compilation devices shall be subject to appropriate disciplinary action and referral to appropriate law enforcement authorities.

PROHIBITED CONDUCT

Students and staff require a safe and orderly learning environment that is conducive to high student achievement. Certain student behaviors are unacceptable in such an environment and are hereby prohibited by the Board. Prohibited behaviors include, but shall not be limited to the following.

1. Disrespect for school employees and failing to comply with their reasonable directions or otherwise demonstrating insubordination;
2. Disruptive behavior that interferes with orderly school operations;
3. Willfully and intentionally assaulting or threatening to assault or physically abusing any student or school employee;
4. Possession of any weapon that can reasonably be considered capable of causing bodily harm to another individual;
5. Possession or use of tobacco in any form on any property owned or leased by any public school;
6. Willfully or intentionally damaging, destroying, or stealing school property;
7. Possession of any paging device, beeper, or similar electronic communication devices on the school campus during normal school hours unless stored in silent mode in the student’s locker or vehicle or specifically exempted by the administration for health or other compelling reasons;
8. Possession, selling, distributing, or being under the influence of an alcoholic beverage, any illegal drug, unauthorized inhalants, or the inappropriate use or sharing of prescription or over the counter drugs, or other intoxicants, or anything represented to be a drug;
9. Sharing, diverting transferring, applying to others (such as needles or lancets), or in any way misusing medication or any medical supplies in their possession;
10. Inappropriate public displays of affection;
11. Cheating, copying, or claiming another person's work to be his/her own;
12. Gambling;
13. Inappropriate student dress;
14. Use of vulgar, profane, or obscene language or gestures;
15. Truancy;
16. Excessive tardiness;
17. Engaging in behavior designed to taunt, degrade, or ridicule another person on the basis of race, ethnicity, national origin, sex, or disability;
18. Possess, view, distribute or electronically transmit sexually explicit or vulgar images or representations, whether electronically, on a data storage device, or in hard copy form;
19. Hazing, or aiding in the hazing of another student;
20. Gangs or gang-related activities, including belonging to secret societies of any kind, are forbidden on school property. Gang insignias, clothing, “throwing signs” or other gestures associated with gangs are prohibited;
21. Sexual harassment;
22. Bullying; and
23. Operating a vehicle on school grounds while using a wireless communication device.

GROUP I INFRACTIONS

DRUGS AND ALCOHOL. An orderly and safe school environment that is conducive to promoting student achievement requires a student population free from the deleterious effects of alcohol and drugs. Their use is illegal, disruptive to the educational environment, and diminishes the capacity of students to learn and function properly in our schools.

Therefore, no student in the Ozark School District shall possess, attempt to possess, consume, use, distribute, sell, attempt to sell, give to any person, or be under the influence of any substance as defined in this policy, or what the student represents or believes to be any substance as defined in this policy. This policy applies to any student who is on or about school property; is in attendance at school or any school sponsored activity; has left the school campus for any reason and returns to the campus; is en route to or from school or any school sponsored activity.

Prohibited substances shall include, but are not limited to, alcohol, or any alcoholic beverage, inhalants that alter a student’s ability to act, think, or respond, LSD, or any other hallucinogen, marijuana, cocaine, heroin, or any other narcotic drug, PCP, amphetamines, steroids, “designer drugs,” look-alike drugs, or any controlled substance or paraphernalia.

Selling, distributing, or attempting to sell or distribute, or using over-the-counter or prescription drugs not in accordance with the recommended dosage is prohibited.

WEAPONS AND DANGEROUS INSTRUMENTS. No student shall possess a weapon, display what appears to be a weapon, or threaten to use a weapon while in school, on or about school property, before or after school, in attendance at school or any school sponsored activity, in route to or from school or any school sponsored activity, off the school grounds at any school bus stop, or at any school sponsored activity or event. Military personnel, such as ROTC cadets, acting in the course of their official duties are exempted.

A weapon is defined as any firearm; knife; razor; ice pick; dirk; box cutter; nunchucks; pepper spray; mace; or other noxious spray; explosive; Taser or other instrument that uses electrical current to cause neuromuscular incapacitation; or any other instrument or substance capable of causing bodily harm. For the purposes of this policy, "firearm" means any device designed, made, or adapted to expel a projectile by the action of an explosive or any device readily convertible to that use.

Possession means having a weapon, as defined in this policy, on the student’s body or in an area under his/her control. If, a student discovers prior to any questioning or search by any school personnel that he/she has accidentally brought a weapon, other than a firearm, to school on his/her person, in a book bag/purse, or in his/her vehicle on school grounds, and the student informs the principal or a staff person immediately, the student will not be considered to be in possession of a weapon unless it is a firearm. The weapon shall be confiscated and held in the office until such time as the student’s parent/legal guardian shall pick up the weapon from the school’s office. Repeated offenses are unacceptable and shall be grounds for disciplinary action against the student as otherwise provided for in this policy.

Except as permitted in this policy, students found to be in possession on the school campus of a firearm shall be recommended for expulsion for a period of not less than one year. The superintendent shall have the discretion to modify such expulsion recommendation for a student on a case-by-case basis. Parents or legal guardians of students expelled under this policy shall be given a copy of the current laws regarding the possibility of parental responsibility for allowing a child to possess a firearm on school property. Parents or legal guardians shall sign a statement acknowledging that they have read and understand said laws prior to readmitting the student. Parents or legal guardians of a student enrolling from another school after the expiration of an expulsion period for a firearm policy violation shall also be given a copy of the current laws regarding the possibility of parental responsibility for allowing a child to possess a firearm on school property. The parents or legal guardians shall sign a statement acknowledging that they have read and understand said laws prior to the student being enrolled in school.

The mandatory expulsion requirement for possession of a firearm does not apply to a firearm brought to school for the purpose of participating in activities approved and authorized by the district that include the use of firearms. Such activities may include ROTC programs, hunting safety or military education, or before
or after-school hunting or rifle clubs. Firearms brought to school for such purposes shall be brought to the school employee designated to receive such firearms. The designated employee shall store the firearms in a secure location until they are removed for use in the approved activity.

The district shall report any student who brings a firearm to school to the criminal justice system or juvenile delinquency system by notifying local law enforcement.

Treatment of School Personnel. A student shall not willfully and intentionally assault (physically or verbally), or commit battery on any school employee. (Also see section on cyberbullying of staff on page 23).

Threats. No student shall threaten to cause death or serious physical injury to another student or employee or threaten to cause substantial property damage. Ozark Public Schools will adhere to a “no tolerance” policy concerning threats. This means that there is no such thing as a “teasing” threat of any act of potential violence as far as the school is concerned. Any threats made at school electronically will be dealt with as if the threat were made verbally towards a student.

GROUP I DISCIPLINARY ACTION

Immediate ten-day suspension from school and possible recommendation for expulsion. The school will notify proper law enforcement authorities if necessary.

The principal, or in the principal’s absence, the principal’s designee, shall make a reasonable, good faith effort to contact the student’s parent(s) or legal guardians. If the principal or designee is unable to reach the parent or legal guardian, he or she shall make a reasonable, good faith effort to get a message to the parent to call either the principal or designee and leave both a day and an after hour phone number.

GROUP II INFRACTIONS

Indecent Exposure. A student shall not deliberately commit indecent exposure, nor shall a student make improper sexual advances toward another person at school or at school functions.

Sexual Activity. Sexual activity is prohibited at school, at school events or activities, and on school property.

STUDENT SEXUAL HARASSMENT. The Ozark School District is committed to having an academic environment in which all students are treated with respect and dignity. Student achievement is best attained in an atmosphere of equal educational opportunity that is free of discrimination. Sexual harassment is a form of discrimination that undermines the integrity of the educational environment and will not be tolerated.

Believing that prevention is the best policy, the District will periodically inform students and employees about the nature of sexual harassment, the procedures for registering a complaint, and the possible redress that is available. The information will stress that the district does not tolerate sexual harassment and that students can report inappropriate behavior of a sexual nature without fear of adverse consequences. The information will take into account and be appropriate to the age of the students.

It shall be a violation of this policy for any student to be subjected to, or to subject another person to, sexual harassment as defined in this policy. Any student found, after an investigation, to have engaged in sexual harassment will be subject to disciplinary action up to, and including, expulsion.

Sexual harassment refers to unwelcome sexual advances, requests for sexual favors, or other personally offensive verbal, visual, or physical conduct of a sexual nature made by someone under any of the following conditions:

1. Submission to the conduct is made, either explicitly or implicitly, a term or condition of an individual’s education;
2. Submission to, or rejection of, such conduct by an individual is used as the basis for academic decisions affecting that individual; and/or
3. Such conduct has the purpose or effect of substantially interfering with an individual’s academic performance or creates an intimidating, hostile, or offensive academic environment.

The terms “intimidating,” “hostile,” and “offensive” include conduct of a sexual nature which has the effect of humiliation or embarrassment and is sufficiently severe, persistent, or pervasive that it limits the student’s ability to participate in, or benefit from, an educational program or activity.

Actionable sexual harassment is generally established when an individual is exposed to a pattern of objectionable behaviors or when a single, serious act is committed. What is, or is not, sexual harassment will depend upon all of the surrounding circumstances. Depending upon such circumstances, examples of sexual harassment include, but are not limited to: unwelcome touching; crude jokes or pictures; discussions of sexual experiences; pressure for sexual activity; intimidation by words, actions, insults, or name calling; teasing related to sexual characteristics or the belief or perception that an individual is not conforming to expected gender roles or conduct or is homosexual, regardless of whether or not the student self-identifies as homosexual; and spreading rumors related to a person’s alleged sexual activities.

Students who believe they have been subjected to sexual harassment, or parents of a student who believes their child has been subjected to sexual harassment, are encouraged to file a complaint by contacting a counselor, teacher, Title IX coordinator, or administrator who will assist them in the complaint process. Under no circumstances shall a student be required to first report allegations of sexual harassment to a school contact person if that person is the individual who is accused of the harassment.

To the extent possible, complaints will be treated in a confidential manner. Limited disclosure may be necessary in order to complete a thorough investigation. Students who file a complaint of sexual harassment will not be subject to retaliation or reprisal in any form.

Students who knowingly fabricate allegations of sexual harassment shall be subject to disciplinary action up to and including expulsion.

Individuals, who withhold information, purposely provide inaccurate facts, or otherwise hinder an investigation of sexual harassment shall be subject to disciplinary action up to and including expulsion.
GROUP II DISCIPLINARY ACTION

Five (5) days suspension, parent conference, probation, and report to law enforcement if pertinent.
Possible recommendation for expulsion.

GROUP III INFRACTIONS

DISRUPTION OF SCHOOL. No student shall by the use of violence, force, noise, coercion, threat, intimidation, fear, passive resistance, or any other conduct, intentionally cause the disruption of any lawful mission, process, or function of the school, or engage in any such conduct for the purpose of causing disruption or obstruction of any lawful mission, process, or function. Nor shall any student encourage any other student to engage in such activities.

Disorderly activities by any student or group of students that adversely affect the school’s orderly educational environment shall not be tolerated at any time on school grounds. Teachers may remove from class and send to the principal or principal’s designee office a student whose behavior is so unruly, disruptive, or abusive that it seriously interferes with the teacher’s ability to teach the students, the class, or with the ability of the student’s classmates to learn. Students who refuse to leave the classroom voluntarily will be escorted from the classroom by the school administration.

TOBACCO AND TOBACCO PRODUCTS. Smoking or use of tobacco or products containing tobacco in any form (including, but not limited to, cigarettes, cigars, chewing tobacco, and snuff) in or on any real property owned or leased by a District school, including school buses owned or leased by the District, is prohibited. Students who violate this policy may be subject to legal proceedings in addition to student disciplinary measures.

With the exception of recognized tobacco cessation products, this policy’s prohibition includes any tobacco or nicotine delivery system or product. Specifically, the prohibition includes any product that is manufactured, distributed, marketed, or sold as e-cigarettes, e-cigars, e-pips, or under any other name or descriptor.

STUDENT ASSAULT OR BATTERY. A student shall not threaten, physically abuse, or attempt to physically abuse, or behave in such a way as to be perceived to threaten bodily harm to any other person (student, school employee, or school visitor). Any gestures, vulgar, abusive or insulting language, taunting, threatening, harassing, or intimidating remarks by a student toward another person that threatens their well-being is strictly forbidden. This includes, but is not limited to, fighting, racial, ethnic, religious, or sexual slurs.

Furthermore, it is unlawful, during regular school hours, and in a place where a public school employee is required to be in the course of his or her duties, for any person to address a public school employee using language which, in its common understanding, is calculated to: a) cause a breach of the peace; b) materially and substantially interfere with the operation of the school; c) arouse the person to whom it is addressed to anger, to the extent likely to cause imminent retaliation. Students guilty of such an offense may be subject to legal proceedings in addition to student disciplinary measures.

Possession and Use of Cell Phones

Use and misuse of cell phones has the potential to threaten the ability of the district’s schools to properly and efficiently operate the education program. The school board believes it is necessary to restrict student use and possession of cell phone, other electronic communication devices, cameras, MP3 Players, iPods, and other portable music devices so that the opportunity for learning in the district’s schools may be enhanced.

For the purpose of this policy, the use of a cell phone or other communication device includes any incoming call, text message, message waiting or any other audible sound coming from the phone or device.

For Ozark High School and Junior High, student cell phone use is permitted before and after school, at lunch, and between classes. The use of a cell phone during instructional time is not permitted unless authorized by the classroom teacher or principal for educational purposes.

Students are responsible for conducting themselves in a manner that respects the rights of others. Possession and use of any electronic device, whether district or student owned, that interferes with a positive, orderly classroom environment does not respect the rights of others and is expressly forbidden.

To protect the security of statewide assessments no electronic, device as defined in this policy shall be accessible by a student at any time during test administration unless specifically permitted by a student’s IEP or individual health plan. This means that when a student is taking an AESSA assessment, the student shall not have his/her electronic device in his/her possession. Any student violating this provision shall be subject to this policy’s disciplinary provisions.

As used in this policy, “electronic devices” means anything that can be used to transmit or capture images, sound, or data.

Misuse of electronic devices includes, but is not limited to:

1. Using electronic devices during class time in any manner other than specifically permitted by the classroom instructor;
2. Permitting any audible sound to come from the device when not being used for reason #1 above;
3. Engaging in academic dishonesty, including cheating, intentionally plagiarizing, wrongfully giving or receiving help during an academic examination, or wrongfully obtaining test copies or scores;
4. Using the device to take photographs in locker rooms or bathrooms;
5. Creating, sending, sharing, viewing, receiving, or possessing an indecent visual depiction of oneself or another person.

Use of an electronic device is permitted to the extent it is approved in a student’s individualized education program (IEP) or it is needed in an emergency that threatens the safety of students, staff, or other individuals.

Before and after normal school hours, possession of electronic devices is permitted on the school campus. The use of such devices at school sponsored functions outside the regular school day is permitted to the extent and within the limitations allowed by the event or activity the student is attending.
The student and/or the student’s parents or guardians expressly assume any risk associated with students owning or possessing electronic devices. Students misusing electronic devices shall have them confiscated. Confiscated devices may be picked up at the school’s administration office by the student’s parents or guardians. Students have no right of privacy as to the content contained on any electronic devices that have been confiscated. A search of a confiscated device shall meet the reasonable individualized suspicion requirements of Policy 4.32—SEARCH, SEIZURE, AND INTERROGATIONS.

Students who use a school issued cell phones and/or computers for non-school purposes, except as permitted by the district’s Internet/computer use policy, shall be subject to discipline, up to and including suspension or expulsion. Students are forbidden from using school issued cell phones while driving any vehicle at any time. Violation may result in disciplinary action up to and including expulsion.

No student shall use any wireless communication device for the purposes of browsing the internet; composing or reading emails and text messages; or making or answering phone calls while driving a motor vehicle which is in motion and on school property. Violation may result in disciplinary action up to and including suspension.

The Bring Your Own Device (BYOD) policy will waive certain portions of the Electronic Devices policy. Please see the BYOD policy.

**Gangs and Gang Activity.** The Board is committed to ensuring a safe school environment conducive to promoting a learning environment where students and staff can excel. An orderly environment cannot exist where unlawful acts occur causing fear, intimidation, or physical harm to students or school staff. Gangs and their activities create such an atmosphere and shall not be allowed on school grounds or at school functions.

The following actions are prohibited by students on school property or at school functions:

1. Wearing or possessing any clothing, bandanas, jewelry, symbol, or other sign associated with membership in, or representative of, any gang;
2. Engaging in any verbal or nonverbal act such as throwing signs, gestures, or handshakes representative of membership in any gang;

BULLYING. Respect for the dignity of others is a cornerstone of civil society. Students who bully another person shall be held accountable for their actions whether they occur on school equipment or property; off school property at a school sponsored or approved function, activity, or event; going to or from school or a school activity in a school vehicle or school bus; or at designated school bus stops.

GROUP V INFRACTIONS

STUDENT DRESS AND GROOMING

The Ozark Board of Education recognizes that dress can be a matter of personal taste and preference. At the same time, the District has a responsibility to promote an environment conducive to student learning. This requires limitations to student dress and grooming that could be disruptive to the educational process because they are immodest, disruptive, unsanitary, unsafe, could cause property damage, or are offensive to common standards of decency.

Students are prohibited from wearing, while on the school grounds during the school day and at school-sponsored events, clothing that exposes underwear, buttoks, or the breast of a female. This prohibition does not apply, however to a costume or uniform worn by a student while participating in a school-sponsored activity or event.

Inappropriate clothing includes any shirt that reveals undergarments or an inappropriate amount bare skin, transparent or see-through apparel, clothes with patches or lettering that are controversial, provocative, obscene, suggestive that advertise drugs or alcohol, strapless blouses, halter tops, bare midriffs, bare backs or spandex like shorts or tops. Shorts or dresses/skirts should be worn (while standing and seated) at an appropriate length as determined by the administration. Shoes must be worn at all times.

Clothes are to be worn as the manufacturer intended – example both overall straps should be fastened, clothes should not be worn wrong side out (unless part of a spirit week or other school event) No hats allowed on campus or in buildings without special permission from the principal. No holes in pants above the accepted level for shorts and skirts. No sleep pants or pajamas. Shirts should have an attached sleeve. Shorts should extend to the fingertips when arms are placed at the sides.

GROUP V DISCIPLINARY ACTION

1. First offense – student will be asked to change their clothing or receive out of school suspension until they can return wearing attire that does not violate this law.
2. Second and following offenses, the student (after returning in the proper attire) will receive in-school suspension for the remainder of the day or days considering how many times the policy is violated up to 3 days.

3. After a third offense, the student will receive out of school suspension for ten (10) days with recommendation for expulsion. (Act 835 of 2011)

GROUP VI INFRACTIONS

STUDENTS’ VEHICLES. A student who has presented a valid driver’s license and proof of insurance to the appropriate office personnel, may drive his/her vehicle to school. Vehicles driven to school shall be parked in the area designated for student parking in your assigned parking spot or row. Student vehicles must display the proper identification hangtag that matches information provided to the office. Students are not permitted to loiter in parking areas and are not to return to their vehicles for any reason unless given permission to do so by school personnel.

It is understood that there is no expectation of privacy in vehicles in parking areas. Drivers of vehicles parked on a school campus will be held accountable for illegal substances or any other item prohibited by District policy found in their vehicle. Any student parking a vehicle on campus is granting permission for school or law enforcement authorities to search that vehicle.

GROUP VI DISCIPLINARY ACTION

1. Loss of parking privileges for 3 days
2. Loss of parking privileges for two (2) weeks and contact parent.
3. Loss of parking privileges for four (4) weeks and contact parent.
4. Loss of parking privileges for remainder of the year.

- Walk.
- Do not cut in line.
- Leave your area free of trash when you leave the table to take your tray, glass, and utensils to the tray receiving area.
- Display good manners and appropriate behavior.

SCHOOL LUNCH SUBSTITUTIONS. The district only provides substitute meal components on menus to accommodate students with handicapping conditions meeting the definition of a disability as defined in USDA regulations. A parent/guardian wishing to request such a dietary accommodation must submit a Certification of Disability for Special Dietary Needs Form completed by a licensed physician to the district’s Food Service Director.

The district will not prepare meals outside the normal menu to accommodate a family’s religious or personal health beliefs.

FOOD SERVICE PREPAYMENT. The district does not offer credit for food items purchased in the school cafeteria; payment for such items is due at the time the food items are received. Parents or students choosing to do so may pay weekly or monthly in advance for students’ meals.

Hall Conduct. Students are responsible for appropriate behavior in the hallways at all times. The following are examples of conduct to be avoided:

- General Horseplay
- Leaving trash in the hallways.
- Congregating in groups and/or blocking the flow of traffic, especially at the intersections.

CONDUCT TO AND FROM SCHOOL AND TRANSPORTATION ELIGIBILITY

Students are subject to the same rules of conduct while traveling to and from school as they are while on school grounds. Appropriate disciplinary actions may be taken against commuting students who violate student code of conduct rules.

The preceding paragraph also applies to student conduct while on school buses. Students shall be instructed in safe riding practices. The driver of a school bus shall not operate the school bus until every passenger is seated. Disciplinary measures for problems related to bus behavior shall include suspension or expulsion from school, or suspending or terminating the student’s bus transportation privileges. Transporting students to and from school who have lost their bus transportation privileges shall become the responsibility of the student’s parent or legal guardian.

Students are eligible to receive district bus transportation if they don’t violate bus rules and lose the privilege of riding the bus.

CONTACT WITH STUDENTS WHILE AT SCHOOL

CONTACT BY PARENTS

Parents wishing to speak to their children during the school day shall register first with the office.

CONTACT BY NON-CUSTODIAL PARENTS

If there is any question concerning the legal custody of the student, the custodial parent shall present documentation to the principal or the principal’s designee establishing the parent’s custody of the student. It shall be the responsibility of the custodial parent to make any court ordered "no contact" or other restrictions regarding the non-custodial parent known to the principal by presenting a copy of a file-marked court order. Without such a court order on file, the school will
release the child to either of his/her parents. Non-custodial parents who file with the principal a date-stamped copy of current court orders granting visitation may eat lunch, volunteer in their child's classroom, or otherwise have contact with their child during school hours and the prior approval of the school's principal. Such contact is subject to the limitations outlined in Policy 4.16, Policy 6.5, and any other policies that may apply.

Arkansas law provides that, in order to avoid continuing child custody controversies from involving school personnel and to avoid disruptions to the educational atmosphere in the District's schools, the transfer of a child between his/her custodial parent and non-custodial parent, when both parents are present, shall not take place on the school's property on normal school days during normal hours of school operation. The custodial or non-custodial parent may send to/drop off the student at school to be sent to/picked up by the other parent on predetermined days in accordance with any court order provided by the custodial parent or by a signed agreement between both the custodial and non-custodial parents that was witnessed by the student's building principal. Unless a valid no-contact order has been filed with the student's principal or the principal's designee, district employees shall not become involved in disputes concerning whether or not that parent was supposed to pick up the student on any given day.

CONTACT BY LAW ENFORCEMENT, SOCIAL SERVICES, OR BY COURT ORDER

State Law requires that Department of Human Services employees, local law enforcement, or agents of the Crimes Against Children Division of the Department of Arkansas State Police, may interview students without a court order for the purpose of investigating suspected child abuse. In instances where the interviewers deem it necessary, they may exercise a "72-hour hold" without first obtaining a court order. Other questioning of students by non-school personnel shall be granted only with a court order directing such questioning, with permission of the parents of a student (or the student if above eighteen [18] years of age), or in response to a subpoena or arrest warrant.

If the District makes a report to any law enforcement agency concerning student misconduct or if access to a student is granted to a law enforcement agency due to a court order, the principal or the principal's designee shall make a good faith effort to contact the student's parent, legal guardian, or other person having lawful control by court order, or person acting in loco parentis identified on student enrollment forms. The principal or the principal's designee shall not attempt to make such contact if presented documentation by the investigator that notification is prohibited because a parent, guardian, custodian, or person standing in loco parentis is named as an alleged offender of the suspected child maltreatment. This exception applies only to interview requests made by a law enforcement officer, an investigator of the Crimes Against Children Division of the Department of Arkansas State Police, or an investigator or employee of the Department of Human Services.

In instances other than those related to cases of suspected child abuse, principals must release a student to either a police officer who presents a subpoena for the student, or a warrant for arrest, or to an agent of state social services or an agent of a court with jurisdiction over a child with a court order signed by a judge. Upon release of the student, the principal or designee shall give the student's parent, legal guardian, or other person having lawful control by court order, or person acting in loco parentis notice that the student has been taken into custody by law enforcement personnel or a state's social services agency. If the principal or designee is unable to reach the parent, he or she shall make a reasonable, good faith effort to get a message to the parent to call the principal or designee, and leave both a day and an after-hours telephone number.

Contact by Professional Licensure Standards Board Investigators

Investigators for the Professional Licensure Standards Board may meet with students during the school day to carry out the investigation of an ethics complaint.

Closed Campus. All schools in the District shall operate closed campuses. Students are required to stay on campus from their arrival until dismissal at the end of the regular school day. Students may be given permission to leave the campus by a school official and must sign out in the office upon their departure.

Signing Out/In. Any student that leaves campus before the school day ends must have parent/guardian sign them out in the office. Students arriving late or returning to campus must sign in at the office.

Student Visitors. The board strongly believes that the purpose of school is for learning. Social visitors, generally, disrupt the classroom and interfere with learning that should be taking place. Therefore, visiting with students at school is strongly discouraged, unless approved by the principal and scheduled in advance. This includes visits made by former students, friends, and/or relatives of teachers or students. Any visitation to the classroom shall be allowed only with the permission of the school principal and all visitors must first register at the office.

Persistent Disregard for School Rules. A student who persists in acts of misconduct after reasonable efforts have been made by the school to secure the student's adherence to the established rules shall be recommended for expulsion. Efforts toward behavior modification will be prior to recommendation for expulsion except when very serious offenses have been committed.

Discipline for Handicapped Students. The Ozark School District will discipline students with disabilities in the same manner the district disciplines other students unless the Individual Education Plan (IEP) requires alternative actions.

CORPORAL PUNISHMENT

Corporal punishment may be administered to students, by certified personnel, in the presence of a school administrator, or his/her designee.

- It may be administered only for cause.
- It will not be administered in the presence of other students.
• It will not be administered with malice, with anger, or in excess. Students will receive no more than three (3) licks with a wooden paddle.
• Before corporal punishment is administered, the student shall be advised of the reason for his/her punishment in the presence of the witness. The student shall be given an opportunity to state their position if he/she claims innocence. (School officials are not required to hold formal hearings prior to corporal punishment.)
• If a student refuses to choose a punishment, In School Suspension or Out of School Suspension will be assigned by the principal or the principal’s designee.
• The principal shall be notified and a written report will be filed in the office on the day of the incident.

COMMUNICABLE DISEASES AND PARASITES

Students with communicable diseases or with human host parasites that are transmittable in a school environment shall demonstrate respect for other students by not attending school while they are capable of transmitting their condition to others. Students whom the school nurse determines are unwell or unfit for school attendance or who are believed to have a communicable disease or condition will be required to be picked up by their parent or guardian. Specific examples include, but are not limited to: Varicella (chicken pox), measles, scabies, conjunctivitis (Pink Eye), impetigo/MRSA (Methicillin-resistant Staphylococcus aureus), streptococcal and staphylococcal infections, ringworm, mononucleosis, Hepatitis A, B, or C, mumps, vomiting, diarrhea, and fever. A student who has been sent home by the school nurse will be subsequently readmitted, at the discretion of the school nurse, when the student is twenty-four hours symptom free and no longer a transmission risk. In some instances, a letter from a health care provider may be required prior to the student being readmitted to the school.

To help control the possible spread of communicable diseases, school personnel shall follow the District’s exposure control plan when dealing with any blood borne, food borne, and airborne pathogens exposures. Standard precautions shall be followed relating to the handling, disposal, and cleanup of blood and other potentially infectious materials such as all body fluids, secretions and excretions (except sweat).

In accordance with 4.57—IMMUNIZATIONS, the District shall maintain a copy of each student’s immunization record and a list of individuals with exemptions from immunization which shall be education records as defined in policy 4.13. That policy provides that an education record may be disclosed to appropriate parties in connection with an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals.

A student enrolled in the District who has an immunization exemption may be removed from school at the discretion of the Arkansas Department of Health during an outbreak of the disease for which the student is not vaccinated. The student may not return to school until the outbreak has been resolved and the student's return to school is approved by the Arkansas Department of Health.

The parents or legal guardians of students found to have live human host parasites that are transmittable in a school environment will be asked to pick their child up at the end of the school day. The parents or legal guardians will be given information concerning the eradication and control of human host parasites. A student may be readmitted after the school nurse or designee has determined the student no longer has live human host parasites that are transmittable in a school environment.

Each school may conduct screenings of students for human host parasites that are transmittable in a school environment as needed. The screenings shall be conducted in a manner that respects the privacy and confidentiality of each student.

COMPLAINTS AND GRIEVANCES

If a person has a complaint or grievance concerning a policy or staff member of the Ozark School District, the following procedure shall be followed:

1. An individual who feels that he/she has a grievance should present the matter orally or in writing to the individual staff member. A conference should be scheduled between the two parties.

2. If an individual feels the complaint or grievance is unresolved after the first step, the person may request a meeting with the building principal.

3. If an individual feels the complaint or grievance is unresolved after the second step, the person may request a meeting with the Superintendent.

IN SCHOOL SUSPENSION

In school suspension (ISS) is the removal of a student from his/her regular class and placement in the student detention center for a period of time determined by the principal or his/her designee. It is intended as a disciplinary consequence in lieu of corporal punishment or suspension from school. Students assigned to in school suspension will not be counted absent from school and will be given credit for work done while serving in school suspension. Students assigned to in school suspension will report to the student detention center with all required school materials upon arrival at school and do the work assigned by their regular classroom teacher as well as work assigned by ISS instructor (ie Daily essay and copy of ISS rules). Any profane language done while serving in school suspension. Failure to work on given assignments will result in additional days or out of school suspension. Students will not be allowed to talk, sleep, eat snacks, or disturb class in any manner. They will have two scheduled restroom breaks, one in the morning and another in the afternoon. Students assigned to In School Suspension will eat lunch from 10:40-11:10 am. They will each sit at an individual table and not communicate with others in the cafeteria. They will not have access to chip, drink, or candy machines at school, and food or drinks are not allowed in the student detention center. If a student assigned to in school suspension is checked out of school early, the time missed in ISS must be made up when the student returns to school. A student assigned to ISS will not be allowed to participate in concerts, assemblies, athletic events, dances, extracurricular activities, etc. on the days assigned to ISS, unless approved by the principal. Students who fail to comply with the rules for in school suspension will be subject to other disciplinary action. Students assigned to ISS will complete the ISS attendance and assignments before returning to school. A student who agrees to ISS cannot then change his/her mind to take OSS instead. If you are suspended from ISS, you will complete the ISS assignment before returning to school.

EMERGENCY SUSPENSION OF A STUDENT FROM
CLASS BY TEACHER

A teacher may dismiss any pupil from class. The teacher shall, when feasible, accompany the student to the office of the principal and shall, as soon as practical, file with the principal a written statement of the reason or reasons for the pupil’s dismissal from class. The principal or his designee shall determine whether to reinstate the pupil in class, reassign them, or take other disciplinary action.

BEHAVIOR NOT CONSIDERED IN STATED POLICIES

The Ozark School District reserves the right to pursue legal or disciplinary action for behavior which is subversive to good order and discipline in the schools even though such behavior may not be specified in the preceding written rules.

(1st four letters in the OHS alphabet: HPRD)

SCHOOL COLORS………………………………Purple and Gold
SCHOOL EMBLEM…………………………………The Hillbilly

ALMA MATER
Our own dear Ozark High School, hail to thee.
We love thy morals high,
The purple, gold, and the standards you set,
All pointing to the sky!
Thy bonds of friendship and of loyalty,
Will keep us true till we die.
Standards always fair, ever shine like jewels rare,
Our Alma Mater, Ozark High!

(It is requested by the Ozark High School Student Council, that every Hillbilly student be prepared to sing the first stanza of the Alma Mater whenever necessary)

Thy name we love and never cease to cheer.
O Alma Mater dear,
Here we sing and our tribute we bring.
Loud let the echoes ring.
We love thy walls, thy campus and thy halls.
Honor to us ever calls.
From our high school dear,
Comes to us through all the years, Our Alma Mater High.

GRADING

Parents or guardians shall be kept informed concerning the progress of their student. Parent-teacher conferences are encouraged and may be requested by parents, guardians, or teachers. If the progress of a student is unsatisfactory in a subject, the teacher shall attempt to schedule a parent-teacher conference. In the conference, the teacher shall explain the reasons for difficulties and shall develop, cooperatively with the parents, a plan for remediation which may enhance the probability of the student succeeding. The school shall also send timely progress reports and issue grades for each nine-week grading period to keep parents/guardians informed of their student’s progress.

The evaluation of each student’s performance on a regular basis serves to give the parents/guardians, students, and the school necessary information to help effect academic improvement. Students’ grades shall reflect only the extent to which a student has achieved the expressed educational objectives of the course.

The grades of a child in foster care shall not be lowered due to an absence from school due to:
(1) A change in the child’s school enrollment;
(2) The child’s attendance at a dependency-neglect court proceeding; or
(3) The child’s attendance at court-ordered counseling or treatment.

The grading scale for all schools in the district shall be as follows.

A = 100 – 90
For the purpose of determining grade point averages, the numeric value of each letter grade shall be:

- **A** = 4 points
- **B** = 3 points
- **C** = 2 points
- **D** = 1 point
- **F** = 0 points

The grade point values for Advanced Placement (AP), International Baccalaureate (IB), and approved honor courses shall be one point greater than for regular courses with the exception that an F shall still be worth 0 points.

The final grades of students who transfer in for part of a semester will be determined by blending the grades earned in the district with those earned outside the district. Each final grade will be the sum of the percentage of days in the grading period transferred from outside the district plus the percentage of days in the grading period while in the district times the transferred grade from outside the district plus the percentage of days in the grading period while in the district times the grade earned in the district.

For example: The grading period had 40 days. A student transferred in with a grade of 83% earned in 10 days at the previous school. The student had a grade of 75% in our district’s school earned in the remaining 30 days of the grading period. 10 days is 25% of 40 days while 30 days is 75% of 40 days. Thus the final grade would be .25 (83) + .75 (75) = 75.5%.

**SEMESTER TEST EXEMPTIONS**

Semester test exemptions will be considered at the end of the second semester only, and based on current letter grade and class attendance. All students who meet the qualifications for an exemption will still have the option to raise his or her grade by completing a semester test. For Ozark High School and Junior High, the test exemption policy is as follows:

- **A** and no more than 4 absences
- **B** and no more than 3 absences
- **C** and no more than 2 absences

There will be no exemptions for a letter grade of **D** or **F**.

**ADVANCED PLACEMENT, INTERNATIONAL BACCALAUREATE, and HONORS COURSES**

Students in grades 7-12 who take advanced placement courses, International Baccalaureate courses, or honors or concurrent credit college courses approved for weighted credit by the Arkansas Department of Education shall be graded according to the following schedule.

- **A** = 100 – 90
- **B** = 89 – 80
- **C** = 79 – 70
- **D** = 69-60
- **F** = 59 and below

For the purpose of determining grade point averages, the numeric value of each letter grade shall be:

- **A** = 5 points
- **B** = 4 points
- **C** = 3 points
- **D** = 2 points
- **F** = 0 points

For a student to be eligible to receive weighted credit for an AP, or IB course, the student’s course must have been taught by an Arkansas licensed teacher who has received the appropriate training required by Arkansas statute and ADE Rule or, for an AP teacher, is in the process of completing an Additional Training Plan.

Additionally, for students taking AP or International Baccalaureate courses to receive weighted credit they must take the applicable AP or IB examination after completing the entire course. Credit shall be given for each grading period during the course of the year, but shall be retroactively removed from a student’s grade for any course in which the student fails to take the applicable AP exam. Students who do not take the AP exam shall receive the same numeric value for the grade he/she receives in the course as if it were a non-AP course.

"Honors Courses" are those courses that have been approved by a Department of Education Committee as honors courses. Honors courses must stress higher order learning and be offered in addition to curriculum offerings required by the Standards for Accreditation, Arkansas Public Schools.

Students who transfer into the district will be given weighted credit for the Advanced Placement courses, International Baccalaureate courses, honors courses approved by the Arkansas Department of Education, and concurrent college courses taken for weighted credit at his/her previous school(s) according to the preceding scale.

Progress Reports and Report Cards: Progress reports will be given to students after 4 ½ weeks of each 9-week grading period.
Report Cards will be given to students following each grading period, but they are not mailed unless student bring a self-addressed stamped envelope.

### Participation in Extracurricular Activities

Students must meet eligibility requirements established by the Arkansas Activities Association. If a student is absent from school for part of a day or all day they may not participate in a school activity unless permission is granted by the principal.

#### Definitions:

"Academic Courses" are those courses for which class time is scheduled, which can be credited to meet the minimum requirements for graduation, which is taught by a teacher required to have State licensure in the course or is otherwise qualified under Arkansas statute, and has a course content guide which has been approved by the Arkansas Department of Education (ADE). Any of the courses for which concurrent high school credit is earned may be from an institution of higher education recognized by ADE. If a student passes an academic course offered on a block schedule, the course can be counted twice toward meeting the requirement for students to pass four (4) academic courses per semester as required by this policy.

"Extracurricular activities" are defined as: any school sponsored program where students from one or more schools meet, work, perform, practice under supervision outside of regular class time, or are competing for the purpose of receiving an award, rating, recognition, or criticism, or qualification for additional competition. Examples include, but are not limited to, inter/intrascholastic athletics, cheerleading, band, choral, math, or science competitions, field trips, and club activities.

"Field Trips" are when individual students or groups of students are invited to programs or events when there is no competition and the students are not interacting with each other for the purpose of planning, qualifying, or arranging for future programs or for the purpose of receiving recognition.

"Interscholastic Activities" means athletic or non-athletic/academic activities where students compete on a school vs. school basis.

"Intrascholastic Activities" means athletic or non-athletic/academic activities where students compete with students from within the same school.

"Supplemental Improvement Program (SIP)" is an additional instructional opportunity for identified students outside of their regular classroom and meets the criteria outlined in the current Arkansas Activities Association (AAA) Handbook.

#### Extracurricular Eligibility

The Board believes in providing opportunities for students to participate in extracurricular activities that can help enrich the student's educational experience. At the same time, the Board believes that a student's participation in extracurricular activities cannot come at the expense of his/her classroom academic achievement. Interruptions of instructional time in the classroom to be minimal and absences from class to participate in extracurricular activities shall not exceed one per week per extracurricular activity (tournaments excepted). Additionally, a student's participation in, and the District's operation of, extracurricular activities shall be subject to the following policy. All students are eligible for extracurricular activities unless specifically denied eligibility on the basis of criteria outlined in this policy.

The student shall remain ineligible to participate until the student takes the same or a following state mandated assessment, as applicable. The superintendent or designee may wave this paragraph's provisions when the student's failure was due to exceptional or extraordinary circumstances. Students falling under the provisions of this paragraph shall be permitted to attend curriculum related field trips occurring during the school day.

A student who enrolls in the district and meets the definition of "eligible child" in Policy 4.2— ENTRANCE REQUIREMENTS shall be eligible to try out for an extracurricular activity regardless of the date the student enrolls in the District so long as the student meets all other eligibility requirements and the extracurricular activity is still ongoing.

A student who enrolls in the district and meets the definition of "eligible child" in Policy 4.2— ENROLLMENT shall be eligible to try out for an extracurricular activity regardless of the date the student enrolls in the District so long as the student meets all other eligibility requirements and the extracurricular activity is still ongoing.

A student and the parent or legal guardian of the student shall sign and return an acknowledgement of receipt and review of an information sheet regarding signs and symptoms of sudden cardiac arrest before the student may participate in an athletic activity and before each school year the student participates in an athletic activity.

#### Interscholastic Activities

Each school in the District shall post on its website its schedule of interscholastic activities, including sign-up, tryout, and participation deadlines, at least one semester in advance of those activities. A hard copy of the schedule shall be available upon request.

**ACADEMIC REQUIREMENTS: Junior High**

A student promoted from the sixth to the seventh grade automatically meets scholarship requirements. A student promoted from the seventh to the eighth grade automatically meets scholarship requirements for the first semester. The second semester eighth-grade student meets the scholarship requirements for junior high if he/she has successfully passed four (4) academic courses the previous semester.

The first semester ninth-grade student meets the scholarship requirements for junior high if he/she has successfully passed four (4) academic courses the previous semester which count toward his/her high school graduation requirements.
Ninth-grade students must meet the requirements of the senior high scholarship rule by the end of the second semester in the ninth grade in order to be eligible to participate the fall semester of their tenth-grade year.

**ACADEMIC REQUIREMENTS: Senior High**

In order to remain eligible for competitive interscholastic activity, a student must have passed (4) academic courses the previous semester and either:

1) Have earned a minimum Grade Point Average (GPA) of 2.0 from all academic courses the previous semester; or

AAA provides catastrophic insurance coverage for students participating in AAA governed extracurricular activities who are enrolled in school. As a matter of District policy, no student may participate in a AAA governed extracurricular activity unless he or she is enrolled in a district school, to ensure all students are eligible for AAA catastrophic insurance.

**Intrascholastic Activities**

**AAA Governed Activities**

Students participating in intrascholastic extracurricular activities that would be governed by AAA if they were to occur between students of different schools shall meet all interscholastic activity eligibility requirements to be eligible to participate in the comparable intrascholastic activity. The District will abide by the AAA Handbook for such activities to ensure District students are not disqualified from participating in interscholastic activities.

**Non-AAA Governed Activities**

Unless made ineligible by District policies, all students shall be eligible to participate in non-AAA governed intrascholastic extracurricular activities. Intrascholastic activities designed for a particular grade(s) or course(s) shall require the student to be enrolled in the grade(s) or course(s).

**SPECIAL EDUCATION**

The district shall provide a free appropriate public education and necessary related services to all children with disabilities residing within the district, required under the Individuals With Disabilities Education Act ("IDEA"), Section 504 of the Rehabilitation Act of 1973, the Americans With Disabilities Act, and Arkansas Statutes.

It is the intent of the district to ensure that students who are disabled within the definition of Section 504 of the Rehabilitation Act of 1973 are identified, evaluated and provided with appropriate educational services. Students may be disabled within the meaning of Section 504 of the Rehabilitation Act even though they do not require services pursuant to the IDEA.

For students eligible for services under IDEA, the District shall follow procedures for identification, evaluation, placement, and delivery of services to children with disabilities provided in state and federal statutes which govern special education. Implementation of an Individualized Education Program (IEP) in accordance with the IDEA satisfies the district's obligation to provide a free and appropriate education under Section 504.

The Board directs the superintendent to ensure procedures are in place for the implementation of special education services and that programs are developed to conform to the requirements of state and federal legislation. The superintendent is responsible for appointing a district coordinator for overseeing district fulfillment of its responsibilities regarding handicapped students. Among the coordinator's responsibilities shall be ensuring district enforcement of the due process rights of handicapped students and their parents.

**HOMEWORK**

Homework is considered to be part of the educational program of the District. Assignments shall be an extension of the teaching/learning experience that promotes the student's educational development. As an extension of the classroom, homework must be planned and organized and should be viewed by the students as purposeful.
Teachers should be aware of the potential problem students may have completing assignments from multiple teachers and vary the amount of homework they give from day to day.

Parents shall be notified of this policy at the beginning of each school year.

**Academic Improvement Plan**

In compliance with Act 35 of 2003, the Ozark School District will notify parents and/or guardians through the School Handbook and available conferences of students that will be participating in Academic Improvement Plans. The Academic Improvement Plan shall describe the parents’ role and responsibilities as well as the consequences for the student’s failure to participate in the plan. Academic Improvement Plans are for students who fail to achieve at the proficient level on the state mandated criterion referenced test. Failure to participate with AIP may result in not receiving credit.

**ACADEMIC INFORMATION CONCERNING ATTENDANCE REQUIREMENTS FOR STUDENTS IN GRADES 9 – 12:**

Students in grades nine through twelve (9-12) are required to schedule and attend at least 350 minutes of regularly scheduled class time daily. Part of this requirement may be met by students taking post-secondary courses. Eligible students’ enrollment and attendance at a post-secondary institution shall count toward the required weekly time of school attendance. Each credit hour shall count as three (3) hours of attendance time. This means a three (3) hour course shall count as nine (9) hours of the weekly required time of attendance.

**Entrance Requirements**

To enroll in a school in the District, the child must be a resident of the District as defined in District policy (4.1—RESIDENCE REQUIREMENTS), meet the criteria outlined in policy 4.40—HOMESTAY STUDENTS or in policy 4.52—STUDENTS WHO ARE FOSTER CHILDREN, be accepted as a transfer student under the provisions of policy 4.4, or participate under a school choice option and submit the required paperwork as required by the choice option.

Students who move into the District from an accredited school shall be assigned to the same grade as they were attending in their previous school (mid-year transfers) or as they would have been assigned in their previous school. Home-schooled and private school students shall be evaluated by the District to determine their appropriate grade placement.

The district shall make no attempt to ascertain the immigration status, legal or illegal, of any student or his/her parent or legal guardian presenting for enrollment.

Prior to the child’s admission to a District school:

The Board of Education reserves the right, after a hearing before the Board, not to allow any person who has been expelled from another school district to enroll as a student until the time of the person’s expulsion has expired.

In accordance with Policy 4.57—IMMUNIZATIONS, the child shall be age appropriately immunized or have an exemption issued by the Arkansas Department of Health.

**Uniformed Services Member's Children**

In any instance where a provision of a student's Individual Education Plan (IEP) conflicts with a portion(s) of this policy, provide basic life necessities of food, clothing, and shelter for the student or the student's family. The superintendent shall have the authority to grant such a waiver, on a case-by-case basis, only when convinced the student meets the definition of proven financial hardships.

In rare instances, students may be granted waivers from the mandatory attendance requirement if they would experience proven financial hardships if required to attend a full day of school. For the purpose of this policy, proven financial hardships is defined as harm or suffering caused by a student's inability to obtain or provide basic life necessities of food, clothing, and shelter for the student or the student's family. The superintendent shall have the authority to grant such a waiver, on a case-by-case basis, only when convinced the student meets the definition of proven financial hardships.

In any instance where a provision of a student's Individual Education Plan (IEP) conflicts with a portion(s) of this policy, the IEP shall prevail.

**Study Halls**

Students may be assigned to no more than one (1) class period each day for a study hall that the student shall be required to attend and participate in for the full period. Such study halls are to be used for the purposes of self-study or for organized tutoring which is to take place in the school building.

**Extracurricular Classes**

Students may be assigned to no more than one (1) class period each day for organized and scheduled student extracurricular classes that the student shall be required to attend and participate in for the full class period. Extracurricular classes related to a seasonal activity shall meet for an entire semester whether or not the season ends prior to the end of the semester. Students must attend and participate in the class for the entire semester in order to receive credit for the course. For the purpose of this policy, extracurricular classes is defined as school sponsored activities which are not an Arkansas Department of Education approved course counting toward graduation requirements or classes that have not been approved by the Arkansas Department of Education for academic credit. Such classes may include special interest, fine arts, technical, scholastic, intramural, and interscholastic opportunities.

**Course Enrollment Outside of District**

Enrollment and attendance in vocational-educational training courses, college courses, school work programs, and other department-sanctioned educational programs may be used to satisfy the student attendance requirement even if the programs are not located at the public schools. Attendance in such alternative programs must be pre-approved by the school’s administration. The district shall strive to assign students who have been dropped from a course of study or removed from a school work program job during the semester into another placement or course of study. In the instances where a subsequent placement is unable to be made, the district may grant a waiver for the student for the duration of the semester in which the placement is unable to be made.

In rare instances, students may be granted waivers from the mandatory attendance requirement if they would experience proven financial hardships if required to attend a full day of school. For the purpose of this policy, proven financial hardships is defined as harm or suffering caused by a student's inability to obtain or provide basic life necessities of food, clothing, and shelter for the student or the student's family. The superintendent shall have the authority to grant such a waiver, on a case-by-case basis, only when convinced the student meets the definition of proven financial hardships.

In any instance where a provision of a student's Individual Education Plan (IEP) conflicts with a portion(s) of this policy, the IEP shall prevail.
All students are required to participate in the Smart Core curriculum unless their parents or guardians, or the students if they are 18 years of age or older, sign a Smart Core Waiver Form to not participate. While Smart Core is the default option, both a Smart Core Informed Consent Form and a Smart Core Waiver Form will be sent home with students prior to their enrolling in seventh grade, or when a 7-12 grade student enrolls in the district for the first time and there is not a signed form in the student's permanent record. Parents must sign one of the forms and return it to the school so it can be placed in the students' permanent records. This policy is to be included in student handbooks for grades 6-12 and both students and parents must sign an acknowledgment they have received the policy. Those students not participating in the Smart Core curriculum will be required to fulfill the Core curriculum or the requirements of their IEP (when applicable) to be eligible for graduation. Counseling by trained personnel shall be available to students and their parents or legal guardians prior to the time they are required to sign the consent forms.

While there are similarities between the two curriculums, following the Core curriculum may not qualify students for some scholarships and admission to certain colleges could be jeopardized. Students initially choosing the Core curriculum may subsequently change to the Smart Core curriculum providing they would be able to complete the required course of study by the end of their senior year. Students wishing to change their choice of curriculums must consult with their counselor to determine the feasibility of changing.

This policy, the Smart Core curriculum, and the courses necessary for graduation shall be reviewed by staff, students, and parents at least every other year to determine if changes need to be made to better serve the needs of the district's students. The superintendent, or his/her designee, shall select the composition of the review panel.

Sufficient information relating to Smart Core and the district's graduation requirements shall be communicated to parents and students to ensure their informed understanding of each. This may be accomplished through any or all of the following means:

- Inclusion in the student handbook of the Smart Core curriculum and graduation requirements;
- Discussion of the Smart Core curriculum and graduation requirements at the school's annual public meeting, PTA meetings, or a meeting held specifically for the purpose of informing the public on this matter;
- Discussions held by the school's counselors with students and their parents; and/or
- Distribution of a newsletter(s) to parents or guardians of the district's students.

The first year of this policy's implementation all employees required to be licensed as a condition of their employment shall receive training regarding this policy so that they will be able to help successfully implement it. In subsequent years, administrators, or their designees, shall train newly hired employees, required to be licensed as a condition of their employment, regarding this policy. The district's annual professional development shall include the training required by this paragraph.

- at least one (1) unit of biology or its equivalent; and

Two units chosen from the following three categories:
- Physical Science;
- Chemistry;
- Physics;

Career focus courses shall conform to the curriculum policy of the district and reflect state curriculum frameworks through course sequencing and career course concentrations where appropriate.
A student who enlists in a branch of the United States Armed Forces or the National Guard through the military delayed entry program, the National Guard Split Training Option, or other similar early entry program and completes basic training before graduating from high school shall receive two (2) units of the Career Focus graduation requirements.

SMART CORE CURRICULUM AND GRADUATION REQUIREMENTS FOR THE CLASSES OF 2021 AND THEREAFTER

All students are required to participate in the Smart Core curriculum unless their parents or guardians, or the students if they are eighteen (18) years of age or older, sign a Smart Core Waiver Form to not participate. While Smart Core is the default option, both a Smart Core Informed Consent Form and a Smart Core Waiver Form will be sent home with students prior to their enrolling in seventh (7th) grade, or when a seventh (7th) through twelfth (12th) grade student enrolls in the district for the first time and there is not a signed form in the student's permanent record. Parents must sign one of the forms and return it to the school so it can be placed in the students’ permanent record.1 This policy is to be included in student handbooks for grades six (6) through twelve (12) and both students and parents must sign an acknowledgement they have received the policy. Those students not participating in the Smart Core curriculum will be required to fulfill the Core curriculum or the requirements of their IEP (when applicable) to be eligible for graduation. Counseling by trained personnel shall be available to students and their parents or legal guardians prior to the time they are required to sign the consent forms.

While there are similarities between the two curriculums, following the Core curriculum may not qualify students for some scholarships and admission to certain colleges could be jeopardized. Students initially choosing the Core curriculum may subsequently change to the Smart Core curriculum providing they would be able to complete the required course of study by the end of their senior year.2 Students wishing to change their choice of curriculums must consult with their counselor to determine the feasibility of changing paths.

This policy, the Smart Core curriculum, and the courses necessary for graduation shall be reviewed by staff, students, and parents at least every other year3 to determine if changes need to be made to better serve the needs of the district’s students. The superintendent, or his/her designee, shall select the composition of the review panel.

Sufficient information relating to Smart Core and the district’s graduation requirements shall be communicated to parents and students to ensure their informed understanding of each. This may be accomplished through any or all of the following means:4

- Inclusion in the student handbook of the Smart Core curriculum and graduation requirements;
- Discussion of the Smart Core curriculum and graduation requirements at the school’s annual public meeting, PTA meetings, or a meeting held specifically for the purpose of informing the public on this matter;
- Discussions held by the school’s counselors with students and their parents; and/or
- Distribution of a newsletter(s) to parents or guardians of the district’s students.

Administrators, or their designees, shall train newly hired employees, required to be licensed as a condition of their employment, regarding this policy. The district’s annual professional development shall include the training required by this paragraph.5

To the best of its ability, the District shall follow the requirements covering the transfer of course credit and graduation set forth in the Interstate Compact on Educational Opportunity for Military Children for all students who meet the definition of “eligible child” in Policy 4.2—ENTRANCE REQUIREMENTS.

GRADUATION REQUIREMENTS

The number of units students must earn to be eligible for high school graduation is to be earned from the categories listed below. A minimum of twenty-two (22) units is required for graduation for a student participating in either the Smart Core or Core curriculum. In addition to the twenty-two (22) units required for graduation by the Arkansas Department of Education, the district requires an additional __ units to graduate for a total of __ units. The additional required units may be taken from any electives offered by the district.6 There are some distinctions made between Smart Core units and Graduation units. Not all units earned toward graduation necessarily apply to Smart Core requirements.

All students must pass the test approved by ADE that is similar to the civics portion of the naturalization test used by the United States Citizenship and Immigration Services in order to graduate.

Digital Learning Courses

The District shall offer one or more digital learning course(s) through one or more District approved provider(s) as either a primary or supplementary method of instruction. The courses may be in a blended learning, online-based, or other technology-based format.7 In addition to the other graduation requirements contained in this policy, students are required to take at least one (1) digital learning course for credit while in high school.

Personal and Family Finance

In tenth (10th), eleventh (11th), or twelfth (12th) grade, all students shall cover the Personal and Family Finance Standards by receiving credit for: 8

• All math units must build on the base of algebra and geometry knowledge and skills.
• (Comparable concurrent credit college courses may be substituted where applicable)
• A computer science flex credit may be taken in the place of a math credit beyond Algebra I and Geometry

*A two-year algebra equivalent or a two-year geometry equivalent may each be counted as two units of the four (4) unit requirement.

Science: three (3) units
• at least one (1) unit of biology or its equivalent; and

All career focus unit requirements shall be established through guidance and counseling based on the student’s contemplated work aspirations. Career focus courses shall conform to the curriculum policy of the district and reflect state curriculum frameworks through course sequencing and career course concentrations where appropriate.

A student who enlists in a branch of the United States Armed Forces or the National Guard through the military delayed entry program, the National Guard Split Training Option, or other similar early entry program and completes basic training before graduating from high school shall receive two (2) units of the Career Focus graduation requirements.

Notes: 1 New Smart Core Consent and Smart Core Waiver Forms are available at http://arsba.org/policy-resources and on the ADE website. While 9.03.1.8 of the Standards and the Smart Core Guidance both require parents to sign one of the forms, there’s not much you can do if they don’t. Either way, the default option is Smart Core.

2 The Department’s Guidelines stipulate completion by the end of the senior year. We believe this is not in agreement with A.C.A. § 6-18-202(b)(1), which requires public schools to be open through the completion of the secondary program to students between the ages of five (5) and twenty-one (21). Therefore, we suggest that students be allowed to switch from Core to Smart Core if they could successfully complete its requirements by the time they attained their twenty first (21st) birthday. Acceptance of a diploma negates a student’s right to switch programs.

3 The Standards require a review, but do not stipulate its frequency. Select an interval to insert here (never is not an option). Standards require the inclusion of students, parents, and staff in the formulation and review of this policy.

4 Schools are required to retain documentation procedures and methods used.

5 The Guidelines require the policy to include the training “procedure.” If you prefer a different procedure than inclusion in your district’s annual professional development process, change this sentence accordingly.

6 This sentence is necessary if your district requires more than twenty-two (22) units to graduate; without the sentence and you substitute a number greater than twenty-two (22), it appears that the ADE requires more than twenty-two (22) units to graduate. If you have specific requirements for the additional units, change the sentence’s wording to reflect those requirements.

7 For a detailed explanation/discussion of district options for digital learning courses see policy 5.11—DIGITAL LEARNING COURSES.

8 ADE is currently working on the integration of the Personal and Family Finance Standards into existing courses as well as creating a digital course students may take to cover the Standards. Parents and students should be made aware that more specifics about courses that will satisfy this requirement will be forthcoming and will be in place before the students enter tenth (10th) grade.

9 The Rules specify the option is dependent upon the licensure of the teacher. Specifically, if the course is taught by a licensed social studies teacher, both options exist. If the course is taught by a licensed business education teacher, the credit must be applied toward the career focus requirement.

Classification of Students:

**Freshman**—successfully completed the 8th grade
**Sophomore**—completed at least 3 ½ credits (or English I and another unit from the math/science/social studies curriculum).
**Junior**—completed at least 8 credits in two years.
**Seniors**—must be enrolled in enough courses to meet graduation requirements.

Advanced Placement Courses

Advanced Placement (AP) courses taught at OHS include AP English, AP Biology, AP Environmental Science, AP Calculus, and AP World Geography.

Advanced Placement English.

If class size dictates, the English department will use this policy for determining honor students.

Students with an “A” average in 9th grade Honors/Advanced Placement English (or previous year 10th or 11th) will be selected first.

Students with a “B” average will be considered according to their ranking (average) and room availability.

Students in regular English will be considered with an “A” average and room availability.

Only seniors are eligible for AP English.

Advanced Placement Biology

Students who have an “A” in Biology I and Chemistry I will be considered first.

Students with a “B” in Biology I and Chemistry I will be considered next along with room availability.

Only seniors are eligible for AP Biology.

Advanced Placement Calculus

Students with an “A” average in Geometry Honors or Geometry B, Algebra II, and Advanced Math/Trig will be considered first.

Students with a “B” average in Geometry Honors or Geometry B, Algebra II, and Advanced Math/Trig will be considered next and room availability.
On 2 and 3, teacher recommendation based on percentage, motivation, and behavior will be included.

Schedule Changes.

Changes in student schedules may be made within the first week of each semester. Any schedule change after the first week of a semester must be approved by the principal or the principal's designee.

Auditing a Course

Students may elect to audit an Honor course for no credit with the following restrictions:

The student must be performing below 70% work in the course.

The decision can only be made during the immediate two weeks following the beginning of a semester, subject to disciplinary measures for insubordination. Required courses may not be audited.

Repeating a Course.

Students repeating a course will have both grades recorded for purpose of class rank and computing grade point average. However, the student will only receive one course credit toward graduation. The only exception to the above is Algebra 1 taken in 8th grade. The course may be repeated in grades 9 or 10 and replace the 8th grade course entirely.

CONCURRENT CREDIT

A ninth through twelfth grade student who successfully completes a college course(s) from an institution approved by the Arkansas Department of Education shall be given credit toward high school grades and graduation at the rate of one high school credit for each three (3) semester hours of college credit. Unless approved by the school’s principal, prior to enrolling for the course, the concurrent credit shall be applied toward the student’s graduation requirements as an elective.

A student who takes a three-semester hour remedial/developmental education course, as permitted by the ADE Rules Governing Concurrent College and High School Credit, shall be the equivalent of one-half unit of credit for a high school career focus elective. The remedial/developmental education course cannot be used to meet the core subject area/unit requirements in English and mathematics.

Participation in the concurrent high school and college credit program must be documented by a written agreement between:

- The District’s student, and his or her parent(s) or guardian(s) if the public school student is under the age of eighteen (18);
- The District; and
- The publicly supported community college, technical college, four-year college or university, or private institution the student attends to take the concurrent credit course.

Students will retain credit earned through the concurrent credit program which was applied toward a course required for high school graduation from a previously attended, accredited, public school.

Outside Credits. College and technical school courses will count as elective credits for graduation purposes. A three-hour college or technical course counts as 1 high school unit. For any outside course to count as a required graduation credit, it must be approved by the principal before the class begins. Outside courses (other than those recognized in the handbook as Honors Courses) are not honors courses, regardless of course title.

Correspondence Courses. Correspondence courses through an approved school may also be used as elective credits. For any course to count as a required credit for graduation it must be approved by the principal before enrollment in the course. Students currently enrolled in grades 9-12 but have not completed graduation requirements may be granted permission by the principal to exceed the one credit limit.

School Dances and Prom. School dances may be held on school property. All dances to be held on school property must be approved by the principal. Students attending prom may be no younger than 9th grade and no older than 20 at the time of the prom. All out of school dates must be signed up in the office no later than one week prior to prom.

Petitions. A petition may not be circulated in a school building without prior approval of the superintendent of schools and the building principal. For additional information on distribution of publications refer to the students’ rights, responsibilities and limitations section of the student handbook.

Student Discipline Policy. Ozark School District will develop and update yearly written student discipline policies in compliance with the guidelines established by the Department of Education. The discipline policies will be written in the school’s student handbook, and the handbook will be adopted by a vote of
the Board of Education. The principal will be responsible for distributing the student handbook and keeping written documentation of student and parent receipt of the handbook.

School Insurance. The Ozark School District provides a supplemental insurance policy for students. Supplemental insurance will pay after and above what the student’s regular insurance will pay. Supplemental insurance may not cover the entire cost of medical bills. The Ozark School District assumes no liability whatsoever beyond the limits of the insurance policy.

**Counting Outside Credits**

College and Technical School courses will count as an elective credit for graduation purposes. A 3-hour college or technical course counts as 1 high school unit. For any outside course to count as a required graduation credit, it must be approved by the principal before the class begins.

Correspondence courses through an approved school may also be used as an elective credit.

For any course to count as a required graduation credit, it must be approved by the principal before enrollment in the course. Students currently enrolled in grades 9-12 are limited to one unit of correspondence course credit. Individuals that have attended grades 9-12 but have not completed graduation requirements may be granted permission by the principal to exceed the one credit limit.

**Physical Education Credit:** may be obtained by the following means:
1. Take the approved physical education course.
2. Be in athletics or cheerleading an entire year in grades 9-12, during the school day.
3. Be in athletics after school for an entire year and meet all requirements as established by the coach. Sports which meet only a portion of a semester do not alone meet this requirement but may in combination with other sports satisfy this requirement. The decision of the principal in regard to any situation is final. (2 & 3 must meet requirements as established by state PE standards).

**Math and Science School Seniors - Act 1326 of 1997:**
Students who attended school at the Ozark School District prior to acceptance to the Arkansas School for Mathematics and Sciences may elect to participate in graduation activities the year they graduate, including prom and all graduation activities.

Students attending the Math and Science school will be sent a questionnaire at the beginning of their fourth year of high school in which they are to indicate which activities they plan to attend. The questionnaire will be sent to the last address of record in school district records. Failure to return the questionnaire by October 1 will constitute a waiver of the election to participate in any activities.

Math and Science students will be responsible for the costs of these activities to the same extent as Ozark students, and agree by participating to abide by the Student Handbook of the Ozark school district at these functions. Math and Science students who violate provisions of the Student Handbook at senior activities may be barred from attending one or more future events upon recommendation of the senior high school principal, subject to appeal to the superintendent, whose decision shall be final.

Math and Science students who participate in the graduation ceremony are not eligible to be recognized as valedictorian or salutatorian, but upon presentation of an official transcript from the Math and Science School by May 1 will be recognized as honor graduates if appropriate and based on the criteria of the Ozark School District for honor graduates. Math and Science students who choose to participate in graduation ceremonies will not receive diplomas issued by the Ozark School District, but will instead be presented with certificates of recognition.

**HONORS AND AP COURSES**

* To be an Honor Graduate (beginning with the Class of 2014, all classes prior will be seven) you must take a minimum ten courses from the following list and graduate with a minimum of 3.30 GPA (on a 4.0 GPA scale)

**College Days:** Seniors are allowed two days to visit college campuses. Campus visits must be prearranged through the counselor’s office with the permission of the school. These days may not be taken during 9 week or semester test week. The first college day during the spring semester will not count against semester test exemptions if the student followed the above guidelines in making the visit.
Graduation Ceremonies. Students will conform to the reasonable request of school officials regarding dress and decorum for graduation ceremonies. No senior will be allowed to walk the line who is more than one unit from graduation. Salutatorian and Valedictorian will be designated by a wide yellow sash. Honor Graduates will be designated by yellow tassels. All other graduates will be designated by purple tassels.

The only cords to be worn at the ceremony will be those that recognize academic achievement such as Beta Club or National Honor Society.

Exchange Students. Exchange students will not be included for the purpose of class rank and honor graduates.

Early Graduation. Students may petition the Board of Education for early graduation following the second year of high school (tenth grade year) if certain criteria are met. The student must have at least 14 credits at the end of their second year of high school and have not failed any core course in math, science, English, or social studies. The student must petition the Board before the beginning of the third year of high school. The student may participate in graduation exercises and other senior activities with the upcoming senior class. The student may be an honor graduate but may not be the valedictorian or salutatorian. The student may only obtain senior English through the school curriculum and must enroll either in college or correspondence courses to obtain the remaining credit or credits for graduation.

For students that decide to graduate after the end of their third year of high school (eleventh grade year) but want to complete requirements before the beginning of their fourth year of high school, they must notify the principal in writing before the end of their third year in high school. These students must have 21 or more credits and lack only English IV. The senior English credit may only be fulfilled by correspondence courses approved by Ozark Public Schools and Ozark must be allowed to proctor all exams. These students may participate only in graduation exercises. They may be honor graduates but not valedictorian or salutatorian. All other senior activities are not available to these students. Should the student choose to not walk at Graduation, the diploma will be awarded when all requirements are met, if allowed by state law. If the student chooses to walk in Graduation, the diploma will be held until that time.

STUDENT ACCELERATION

The Board believes that acceleration is an effective and research-based intervention for the academic growth of students who are ready for an advanced or faster-paced curriculum. It can allow a student to move through the traditional educational setting more rapidly, based on assessed readiness, capability and motivation. At the same time, the Board understands that acceleration is not a replacement for gifted education services or programs.

Generally, acceleration can occur through one of two broad categories: content based and grade based. Grade based acceleration shortens the number of years a student would otherwise spend in K-12 education, while content based acceleration occurs within the normal K-12 time span. Either form of acceleration can be triggered by either a parent/guardian, student, or community member's request or by the referral of school personnel. In either case, the process of determining the appropriateness of the request shall be under the direction of the district's Gifted and Talented Program Coordinator who shall convene the individuals necessary to make an informed decision which shall include the student's parents or guardians.

While the needs of the student should dictate when acceleration decisions are considered, the Board believes the optimal time for referrals is in the spring which gives adequate time for working through the determination process and for preparing those concerned for a smooth transition to the acceleration beginning in the following school-year.

The District's Gifted and Talented Program Coordinator will create a written format to govern the referral and determination process which shall be made available to any parent or staff member upon request.

The parents/guardians of any student whose request for acceleration has been denied may appeal the decision, in writing, to the District's GT Coordinator. The District's GT Coordinator and the Acceleration Placement Committee will again thoroughly review the case study that was completed on the student. Upon completion of the review, the Committee will either request additional new testing be conducted to help the Committee make its determination or it will uphold the initial decision. The Committee's decision may not be further appealed.

SCHOOL MEAL MODIFICATIONS

The district only provides modified meal components on menus to accommodate students with a disability. A parent/guardian wishing to request such a dietary accommodations for their student with a disability must submit to the district’s Director of Child Nutrition a medical statement completed by a State licensed healthcare professional, which includes:

- Physicians, including those licensed by:
  - The Arkansas State Medical Board;
  - The Arkansas State Board of Chiropractic Examiners (Chiropractors);
  - The Arkansas Board of Podiatric Medicine (Podiatrists);

- Nurse Practitioners (APRNs in family or pediatric practice with prescriptive authority);

- Physician Assistants (PAs who work in collaborative practice with a physician); and

- Dentists.

The medical statement should include:
1. A description of the student’s disability that is sufficient to understand how the disability restricts the student’s diet;
2. An explanation of what must be done to accommodate the disability, which may include:
   a. Food(s) to avoid or restrict;
   b. Food(s) to substitute;
   c. Caloric modifications; or
   d. The substitution of a liquid nutritive formula.

If the information provided in the medical statement is unclear, or lacks sufficient detail, the district’s Director of Child Nutrition shall request additional information so that a proper and safe meal can be provided.
When choosing an appropriate approach to accommodate a student's disability, the District will consider the expense and efficiency of the requested accommodations. The District will offer a reasonable modification that effectively accommodates the child's disability and provides equal opportunity to participate in or benefit from the program, which may include a generic version of a product.

Parents may file a grievance regarding the request for accommodations with the District’s 504 Coordinator, who will schedule a hearing on the grievance to be held as soon as possible. The 504 coordinator shall provide a copy of the procedures governing the hearing, including that the parent has the right to be accompanied by counsel, and the appeal process upon request.

The district will not prepare meals outside the normal menu to accommodate a family's religious or personal health beliefs.

**STUDENT PUBLICATIONS AND THE DISTRIBUTION OF LITERATURE**

**Student Publications**

All publications that are supported financially by the school or by use of school facilities, or are produced in conjunction with a class shall be considered school-sponsored publications. School publications do not provide a forum for public expression. Such publications, as well as the content of student expression in school-sponsored activities, shall be subject to the editorial control of the District's administration whose actions shall be reasonably related to legitimate pedagogical concerns and adhere to the following limitations.

1. Advertising may be accepted for publications that do not condone or promote products that are inappropriate for the age and maturity of the audience or that endorses such things as tobacco, alcohol, or drugs.
2. Publications may be regulated to prohibit writings which are, in the opinion of the appropriate teacher and/or administrator, ungrammatical, poorly written, inadequately researched, biased or prejudiced, vulgar or profane, or unsuitable for immature audiences.
3. Publications may be regulated to refuse to publish material which might reasonably be perceived to advocate drug or alcohol use, irresponsible sex, or conduct otherwise inconsistent with the shared values of a civilized social order, or to associate the school with any position other than neutrality on matters of political controversy.
4. Prohibited publications include:
   a. Those that are obscene as to minors;
   b. Those that are libelous or slanderous, including material containing defamatory falsehoods about public figures or governmental officials, which are made with knowledge of their falsity or reckless disregard of the truth;
   c. Those that constitute an unwarranted invasion of privacy as defined by state law;
   d. Publications that suggest or urge the commission of unlawful acts on the school premises;
   e. Publications which suggest or urge the violation of lawful school regulations;
   f. Hate literature that scurrilously attacks ethnic, religious, or racial groups.

**Student Publications on School Web Pages**

Student publications that are displayed on school web pages shall follow the same guidelines as listed above plus they shall

1. Not contain any non-educational advertisements. Additionally, student web publications shall;
2. Adhere to the restrictions regarding use of Directory Information as prescribed in Policy 4.13 including not using a student’s photograph when associated with the student's name unless written permission has been received from the student’s parent or student if over the age of 18.
3. State that the views expressed are not necessarily those of the School Board or the employees of the district.

**Student Distribution of Non-school Literature, Publications, and Materials**

A student or group of students who distribute ten (10) or fewer copies of the same non-school literature, publications, or materials (hereinafter “non-school materials”), shall do so in a time, place, and manner that does not cause a substantial disruption of the orderly education environment. A student or group of students wishing to distribute more than ten (10) copies of non-school materials shall have school authorities review their non-school materials at least three (3) school days in advance of their desired time of dissemination. School authorities shall review the non-school materials, prior to their distribution and will bar from distribution those non-school materials that are obscene, libelous, pervasively indecent, or advertise unlawful products or services. Material may also be barred from distribution if there is evidence that reasonably supports a forecast that a substantial disruption of the orderly operation of the school or educational environment will likely result from the distribution. Concerns related to any denial of distribution by the principal shall be heard by the superintendent, whose decision shall be final.

The school principal or designee shall establish reasonable regulations governing the time, place, and manner of student distribution of non-school materials.

The regulations shall:

1. Be narrowly drawn to promote orderly administration of school activities by preventing disruption and may not be designed to stifle expression;
2. Be uniformly applied to all forms of non-school materials;
3. Allow no interference with classes or school activities;
4. Specify times, places, and manner where distribution may and may not occur; and
5. Not inhibit a person’s right to accept or reject any literature distributed in accordance with the regulations.
6. Students shall be responsible for the removal of excess literature that is left at the distribution point for more than 30 days.

The Superintendent, along with the student publications advisors, shall develop administrative regulations for the implementation of this policy. The regulations shall include definitions of terms and timelines for the review of materials.

**Wellness Policy**

The health and physical well-being of Ozark School District students directly affects their ability to learn. The School Board believes that it is necessary to strive to create a culture in our schools that consistently promotes good nutrition and physical activity. The problem of obesity and inactivity is a public health issue. The responsibility for addressing the problem lies not only with the schools and the Department of Education, but with parents and the community. Therefore, the District shall enlist the support of the larger community to find solutions, which improve the health and physical activity of our students.

**Goals:**
- In its efforts to improve the school nutrition environment, promote student health and reduce childhood obesity, the District will adhere to the Arkansas Rules Governing Nutrition and Physical Activity Standards in Arkansas Public Schools. Adhering to these Rules will include, but is not limited to District efforts to:
  - Appoint a district school health coordinator who shall be responsible for ensuring that each school fulfills the requirements of this policy.
  - Implement a grade appropriate nutrition education program that will develop an awareness of and appreciation for nutrition and physical activity throughout the curriculum.
  - Enforce existing physical education requirements and engage students in healthy levels of vigorous physical activity.
  - Strive to improve the quality of physical education curricula and increase the training of physical education teachers.
  - Follow the Arkansas Physical Education and Health Education Frameworks in grades K-12.
  - Not use food or beverages as rewards for academic, classroom or sports performances.
  - Ensure that drinking water is available without charge to all students.
  - Establish class schedules and bus routes that don’t directly or indirectly restrict meal access.
  - Provide students with ample time to eat their meals in pleasant cafeteria and dining areas.
  - Establish no more than nine (9) school wide events which permit exceptions to the food and beverage limitations established by Rule. The schedule of the events shall be by school and approved by the principal. Parents have the right to send food of their choosing to school with their choosing. Food sent to school for events, parties etc. must be commercially made.
  - Abide by the current allowable food and beverage portion standards.
  - Meet or exceed the more stringent of Arkansas’ or the US Dept. of Agriculture’s Nutrition Standards for reimbursable meals and a la carte foods served in the cafeteria.
  - Restrict access to vended foods, competitive foods and foods of minimal nutritional value (FMNV) as required by law and Rule.
  - Conform new and/or renewed vending contracts to the content restrictions contained in the Rules and reduce district dependence of profits from the sale of FMNV.
  - Provide professional development to all district staff on the topics of nutrition and/or physical activity.
  - Utilize the School Health Index available from the Center for Disease Control (CDC) to assess how well the district is doing at implementing this wellness policy and at promoting a healthy environment for its students.

**Advisory Committee:**
To enhance the District’s efforts to improve the health of students, a School Nutrition and Physical Activity Advisory Committee (SNPAAC) shall be formed. It shall be structured in a way that ensures age-appropriate recommendations are made which correlate to our Districts grade configurations. The SNPAAC shall have the powers and responsibilities delegated to it by statute and Rule.

**Students Who Are Foster Children**

The District will afford the same services and educational opportunities to foster children that are afforded other children and youth. The District shall work with the Department of Human Services (“DHS”), the Arkansas Department of Education (ADE), and individuals involved with each foster child to ensure that he/she is able to maintain his/her continuity of educational services to the fullest extent that is practical and reasonable.

The Superintendent or his/her designee shall appoint an appropriate staff person to be the local educational liaison for foster children and youth whose responsibilities shall include ensuring the timely school enrollment of each foster child and assisting foster children who transfer between schools by expediting the transfer of relevant educational records.

The District, working with other individuals and agencies shall, unless the presiding court rules otherwise, ensure that the foster child remains in his/her school of origin, even if a change in the foster child’s placement results in a residency that is outside the district. In such a situation, the District will work with DHS to arrange for transportation to and from school for the foster child to the extent it is reasonable and practical.

Upon notification to the District’s foster care liaison by a foster child’s caseworker that a foster child’s school enrollment is being changed to one of the District’s schools, the school receiving the child must immediately enroll him/her. Immediate enrollment is required even if a child lacks the required clothing, academic or medical records, or proof of residency.

A foster child’s grades shall not be lowered due to absence from school that is caused by a change in the child’s school enrollment, the child’s attendance at dependency-neglect court proceedings, or other court-ordered counseling or treatment.
Any course work completed by the foster child prior to a school enrollment change shall be accepted as academic credit so long as the child has satisfactorily completed the appropriate academic placement assessment.

If a foster child was enrolled in a District school immediately prior to completing his/her graduation requirements while detained in a juvenile detention facility or while committed to the Division of Youth Services of DHS, the District shall issue the child a diploma.

Foster Child School Choice

If DHS approves a request from a foster parent, or the foster child if the foster child is eighteen (18) years of age, to transfer to another school in the District or into the district as being in the best interest of the foster child, the District shall allow the foster child to transfer to another school in the District or into the District if the foster parent, or the foster child if the foster child is eighteen (18) years of age, submits a request to transfer on a form approved by ADE that is postmarked by no later than May 1 of the year the student seeks to begin the fall semester at another school in the District or in the District.

By July 1 of the school year in which the student seeks to transfer under this section, the superintendent shall notify the foster parent, or the foster child if the foster child is eighteen (18) years of age, in writing whether the application has been accepted or rejected. If the application is accepted, the superintendent shall state in the notification letter a reasonable deadline for the foster child to enroll in the new school or the District and that failure to enroll by the date shall void the school choice acceptance. If the application is rejected, the superintendent shall state in the notification letter the reason for the rejection and that the foster parent, or the foster child if the foster child is eighteen (18) years of age, may submit a written appeal of the rejection to the State board within ten (10) days of receiving the notification letter.

The District shall only reject a Foster Child School Choice application if:

1. The public school or District has reached the maximum student-to-teacher ratio allowed under federal law, state law, rules for standards of accreditation, or other applicable rule or regulation; or
2. Approving the transfer would conflict with a provision of an enforceable desegregation court order or a public school district’s court-approved desegregation plan regarding the effects of past racial segregation in student assignment.

A foster child whose application is rejected by the District may submit a written request within ten (10) days following the receipt of the rejection letter from the superintendent to the State Board of Education for the State Board to reconsider the transfer.

A Foster Child School Choice transfer shall remain in effect until the foster child:

- Graduates from high school; or
- Transfers to another school or school district under:
  o The Foster Child School Choice Act;
  o Opportunity Public School Choice Act of 2004;
  o The Public School Choice Act of 2015; or
  o Any other law that allows a transfer.

The District shall accept credits toward graduation that were awarded by another public school district.

When a foster child transfers from the foster child’s school of origin to another school in the District or into the District, the foster child or the foster parent is responsible for the foster child’s transportation to and from the school the foster child transferred to. The District and the foster parent, or the foster child if the foster child is eighteen (18) years of age, may enter into a written agreement for the District to provide the transportation to and from the school the foster child transferred to.

**HOMELESS STUDENTS**

The Ozark School District will afford the same services and educational opportunities to homeless children as are afforded to non-homeless children. The Superintendent or his/her designee shall appoint an appropriate staff person to be the local educational agency (LEA) liaison for homeless children and youth whose responsibilities shall include, but are not limited to:

- Receive appropriate time and training in order to carry out the duties required by law and this policy;
- Coordinate and collaborate with the State Coordinator, community, and school personnel responsible for education and related services to homeless children and youths;
- Ensure that school personnel receive professional development and other support regarding their duties and responsibilities for homeless youths;
- Ensure that unaccompanied homeless youths:
  - Are enrolled in school;
  - Have opportunities to meet the same challenging State academic standards as other children and youths; and
  - Are informed of their status as independent students under the Higher Education Act of 1965 and that they may obtain assistance from the LEA liaison to receive verification of such status for purposes of the Free Application for Federal Student Aid;
- Ensure that public notice of the educational rights of the homeless children and youths is disseminated in locations frequented by parents or guardians of such youth, and unaccompanied homeless youths, including schools, shelters, public libraries, and soup kitchens, in a manner and form that is easily understandable.

To the extent possible, the LEA liaison and the building principal shall work together to ensure no homeless child or youth is harmed due to conflicts with District policies solely because of the homeless child or youth’s living situation; this is especially true for District policies governing fees, fines, and absences.³

Notwithstanding Policy 4.1, homeless students living in the district are entitled to enroll in the district’s school that non-homeless students who live in the same attendance area are eligible to attend. If there is a question concerning the enrollment of a homeless child due to a conflict with Policy 4.1 or 4.2, the child shall be immediately admitted to the school in which enrollment is sought pending resolution of the dispute, including all appeals. It is the responsibility of the District’s LEA liaison for homeless children and youth to carry out the dispute resolution process.

For the purposes of this policy “school of origin” means:
The school that a child or youth attended when permanently housed or the school in which the child or youth was last enrolled, including a preschool; and

The designated receiving school at the next grade level for all feeder schools when the child completes the final grade provided by the school of origin.

The District shall do one of the following according to what is in the best interests of a homeless child to continue the child's or youth's education in the school of origin for the duration of homelessness:

- In any case in which a family becomes homeless between academic years or during an academic year; and
- For the remainder of the academic year, if the child or youth becomes permanently housed during an academic year; or

1. Enroll the child or youth in any public school that non home-education students who live in the attendance area in which the child or youth is actually living are eligible to attend.

In determining the best interest of the child or youth, the District shall:

- Presume that keeping the child or youth in the school of origin is in the child's or youth's best interest, except when doing so is contrary to the request of the child's or youth's parent or guardian, or (in the case of an unaccompanied youth) the youth;
- Consider student-centered factors related to the child's or youth's best interest, including factors related to the impact of mobility on achievement, education, health, and safety of homeless children and youth, giving priority to the request of the child's or youth's parent or guardian or (in the case of an unaccompanied youth) the youth.

If the District determines that it is not in the child's or youth's best interest to attend the school of origin or the school requested by the parent or guardian, or (in the case of an unaccompanied youth) the youth, the District shall provide the child's or youth's parent or guardian or the unaccompanied youth with a written explanation of the reasons for its determination, in a manner and form understandable to such parent, guardian, or unaccompanied youth, including information regarding the right to appeal. For an unaccompanied youth, the District shall ensure that the LEA liaison assists in placement or enrollment decisions, gives priority to the views of such unaccompanied youth, and provides notice to such youth of the right to appeal.

The homeless child or youth must be immediately enrolled in the selected school regardless of whether application or enrollment deadlines were missed during the period of homelessness.

The District shall be responsible for providing transportation for a homeless child, at the request of the parent or guardian (or in the case of an unaccompanied youth, the LEA Liaison), to and from the child's school of origin.

For the purposes of this policy, students shall be considered homeless if they lack a fixed, regular, and adequate nighttime residence and:

A. Are:
   - Sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason;
   - Living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations;
   - Living in emergency or transitional shelters;
   - Abandoned in hospitals; or
   - Awaiting foster care placement;

B. Have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings;

C. Are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and

D. Are migratory children who are living in circumstances described in clauses (a) through (c).

Home Schooling

Parents or legal guardians desiring to provide a home school for their children must give written notice to the Superintendent of their intent to do so and sign a waiver acknowledging that the State of Arkansas is not liable for the education of their children during the time the parents choose to home school. Notice shall be given:

1. At the beginning of each school year, but no later than August 15;

2. By December 15 for parents who decide to start home schooling at the beginning of the spring semester; or

3. Fourteen (14) calendar days prior to withdrawing the child (provided the student is not currently under disciplinary action for violation of any written school policy, including, but not limited to, excessive unexcused absences) and at the beginning of each school year thereafter.

The parents or legal guardians shall deliver written notice in person to the Superintendent the first time such notice is given and the notice must include:

1. The name, date of birth, grade level, and the name and address of the school last attended, if any;

2. The location of the home school;

3. The basic core curriculum to be offered;

4. The proposed schedule of instruction; and

5. The qualifications of the parent-teacher.

To aid the District in providing a free and appropriate public education to students in need of special education services, the parents or legal guardians homeschooling their children shall provide information which might indicate the need for special education services.
ACADEMIC COURSE ATTENDANCE BY PRIVATE SCHOOL AND HOME SCHOOL STUDENTS

The District allows private school and home school students whose parents, legal guardians, or other responsible adult with whom the student resides are residents of the District to attend academic courses offered in grades 7-121. The District will place a list of courses that a private school or home school student may request to attend on its website by:2

1. June 1 for courses to be offered during the Fall semester; and
2. November 1 for courses to be offered during the Spring semester.

A private school or home school student who desires to attend one or more of the available academic courses shall submit a written request to attend the academic course(s) to the superintendent, or designee, no later than:2

a. August 1 for Fall semester courses; or
b. December 1 for Spring semester courses.

The District may reject a private school or home school student’s request for attendance if the District’s acceptance would:

- Require the addition of staff or classrooms;
- Exceed the capacity of a program, class, grade level, or school building;
- Cause the District to provide educational services the District does not currently provide; or
- Cause the District to be out of compliance with applicable laws and regulations regarding desegregation.

Requests to attend an academic course will be granted in the order the requests are received. Upon the receipt of a private or home school student’s request to attend academic course(s), the District will date and time stamp the request for attendance. If a private school or home school student is denied attendance based on a lack of capacity and an opening in the requested course occurs prior to the start of the course, the District will use the date and time stamp on the request for attendance to determine the private school or home school student who will be notified of an opening in the requested course.

As part of the request to attend academic courses in the District, a private school or home school student shall:

- Indicate the course(s) the private school or home school student is interested in attending;
- If the course(s) the private school or home school student is interested in attending is being offered by the District in both a physical and a digital format, whether the private school or home school student intends to attend the physical course or the digital course;
- Agree to follow the District’s discipline policies; and
- Submit immunization documentation required by Policy 4.57—IMMUNIZATIONS. In addition to the documentation methods provided in Policy 4.57, a home school student may submit a letter to the superintendent, or designee, stating an objection to immunizations and listing the immunizations the student has received, if any.

A private school or home school student who fails to attend an academic course by the eleventh (11) day of class shall be dropped from the course.

The responsibility for transportation of any private school or home school student attending academic courses in the District shall be borne by the student or the student’s parents.

The opportunity provided to home school students under this policy is in addition to the opportunity provided in Policy 4.56.2—EXTRACURRICULAR ACTIVITY ELIGIBILITY FOR HOME SCHOOLED STUDENTS.

EXTRACURRICULAR ACTIVITY ELIGIBILITY FOR HOME SCHOOLED STUDENTS

Home-schooled student means a student legally enrolled in an Arkansas home school and who meets or has met the criteria for being a home-schooled student, as established by A.C.A. § 6-15-503.

Interscholastic activity means an activity between schools subject to regulations of the Arkansas Activities Association that is outside the regular curriculum of the school district, such as an athletic activity, fine arts program, or a special interest group or club.

Each school in the District shall post on its website its schedule of interscholastic activities, including sign-up, tryout, and participation deadlines, at least one semester in advance of those activities. A hard copy of the schedule shall be available upon request.

Home-schooled students whose parents or guardians are legal residents of the school district will be permitted to pursue participation in an interscholastic activity in the student’s resident school zone as permitted by this policy.

Home-schooled students whose parent or legal guardian are not residents of the school district will be permitted to pursue participation in an interscholastic activity in the District if the superintendent of the student’s resident district and the superintendent of the District both agree in writing to allow the student to participate in interscholastic activities at the District.

Although not guaranteed participation in an interscholastic activity, home-school students who meet the provisions of this policy, AAA Rules, and applicable Arkansas statutes shall have an equal opportunity to try out and participate in an interscholastic activities without discrimination. The District shall provide a reasonable alternative to any prerequisite for eligibility to participate in an interscholastic activity that the home-schooled student is unable to meet because of his or her enrollment in a home school.

To be eligible to try out and participate in interscholastic activities, the student or the parent of a student shall mail or hand deliver the student’s request to participate to the student’s school’s principal before the signup, tryout or participation deadline established for traditional students. Additionally, the student shall demonstrate academic eligibility by obtaining a minimum test score of the 30th percentile or better in the previous 12 months on the Stanford Achievement Test Series, Tenth Edition; another nationally recognized norm-referenced test; or a minimum score on a test approved by the State Board of Education.
A student who meets the requirements for eligibility to participate in an interscholastic activity is required to register for no more than one course in the District's school where the student is intending to participate in an interscholastic activity.

The student shall regularly attend the class in which the student is registered beginning no later than the eleventh (11th) day of the semester in which the student's interscholastic activity participation is desired. The student must attend the practices for the interscholastic activity to the same extent as is required of traditional students.

A student and the parent or legal guardian of the student shall sign and return an acknowledgement of receipt and review of an information sheet regarding signs and symptoms of sudden cardiac arrest before the student may participate in an athletic activity and before each school year the student participates in an athletic activity.

A home-schooled student who has met the try out criteria; and who has been selected to participate in the interscholastic activity shall meet the following criteria that also apply to traditional students enrolled in the school:

• standards of behavior and codes of conduct;
• attend the practices for the interscholastic activity to the same extent as is required of traditional students;
• required drug testing; 4
• permission slips, waivers, physical exams; and
• participation or activity fees.

A home-schooled student who is not a resident of the District may begin participating in interscholastic activities:

a. Immediately upon being approved for participation for all interscholastic activities other than athletic activities; and
b. One (1) calendar year after being approved to participate in interscholastic activities that are athletic activities unless the approval is prior to July 1 of the school year the student would have been enrolled in seventh (7th) grade if the student were enrolled in public school.

A home-schooled student who is not a resident of the District and is prohibited under this policy from participating in an interscholastic activity that is an athletic activity for one (1) calendar year may immediately participate in rehearsals, tryouts, practices, auditions, classes, or other endeavors associated with the interscholastic activity.

Students who participate in extracurricular or athletic activities under this policy will be transported to and from the interscholastic activities on the same basis as other students are transported.

A student who withdraws from an Arkansas Activities Association member school to be home-schooled shall not participate in an interscholastic activity in the resident school district for a minimum of three hundred sixty-five days after the student withdraws from the member school.

HOMECOMING ROYALTY SELECTION GUIDELINES

(Appplies to Ozark High School only)

The football/basketball teams (depending on which season) will nominate six sophomores, six junior, and eight senior girls to be members of the homecoming court.

Each class will vote by secret ballot to select their members of the court. Two sophomores, two junior, and four seniors will be selected by receiving the highest numbers of votes.

A second ballot containing the names of the senior court will be made. The entire student body will vote again to select the queen and the runner up will be named maid of honor. In the case of a tie, the senior vote count will be used to break the tie.

The student council will be responsible for conducting homecoming elections. The royalty, cheerleaders, and student council will be responsible for decorating and clean up after all homecoming festivities. Failure to participate in cleanup will disqualify a student from future royalty eligibility

Any student selected to be a member of a royalty will not be eligible for consideration for another royalty until her senior year. A student cannot be in both football and basketball royalty in the same school year.

SELECTION OF VALEDICTORIAN AND SALUTATORIAN

The honor graduate with the highest grade point average, on a 4.0 scale, at the end of the eighth semester will be named Valedictorian. The graduate with the second highest G.P.A. will be named Salutatorian.

Student Organizations Equal Access/Non-Hazing Policy

Non-curriculum-related secondary school student organizations wishing to conduct meetings on school premises during non-instructional time shall not be denied equal access on the basis of the religious, political, philosophical, or other content of the speech at such meetings. Such meetings must meet the following criteria.

1. The meeting is to be voluntary and student initiated;
2. There is no sponsorship of the meeting by the school, the government, or its agents or employees;
3. The meeting must occur during non-instructional time;
4. Employees or agents of the school are present at religious meetings only in a non-participatory capacity;
5. The meeting does not materially and substantially interfere with the orderly conduct of educational activities within the school; and
6. Non-school persons may not direct, conduct, control, or regularly attend activities of student groups.
All meetings held on school premises must be scheduled and approved by the principal. The school, its agents, and employees retain the authority to maintain order and discipline, to protect the well-being of students and faculty, and to assure that attendance of students at meetings is voluntary.

Fraternities, sororities, and secret societies are forbidden in the District’s schools. Membership to student organizations shall not be by a vote of the organization’s members, nor be restricted by the student’s race, religion, sex, national origin, or other arbitrary criteria. Hazing, as defined by law, is forbidden in connection with initiation into, or affiliation with, any student organization, extracurricular activity or sport program.

Students who are convicted of participation in hazing or the failure to report hazing shall be expelled.

EMERGENCY DRILLS

All schools in the District shall conduct fire drills at least monthly. Tornado drills shall also be conducted not fewer than three (3) times per year with at least one each in the months of September, January, and February. Students, who ride school buses, shall also participate in emergency evacuation drills at least twice each school year.

The District shall annually conduct an active shooter drill and school safety assessment for all District schools in collaboration with local law enforcement and emergency management personnel. The training will include a lockdown exercise with panic button alert system training. Students will be included in the drills to the extent that is developmentally appropriate for the age of both the students and grade configuration of the school.

Drills may be conducted during the instructional day or during non-instructional time periods.

Other types of emergency drills may also be conducted to test the implementation of the District's emergency plans in the event of violence, terrorist attack, natural disaster, other emergency, or the District’s Panic Button Alert System. Students shall be included in the drills to the extent practicable.

STUDENT ILLNESS/ACCIDENT

If a student becomes too ill to remain in class and/or could be contagious to other students, the principal or designee will attempt to notify the student’s parent or legal guardian. The student will remain in the school’s health room or a place where he/she can be supervised until the end of the school day or until the parent/legal guardian can check the student out of school.

If a student becomes seriously ill or is injured while at school and the parent/legal guardian cannot be contacted, the failure to make such contact shall not unreasonably delay the school’s expeditious transport of the student to an appropriate medical care facility. The school assumes no responsibility for treatment of the student. When available, current, and applicable, the student’s emergency contact numbers and medical information will be utilized. Parents are strongly encouraged to keep this information up to date.

IMMUNIZATIONS

Definitions

“In process” means the student has received at least one dose of the required immunizations and is waiting the minimum time interval to receive the additional dose(s).

“Serologic testing” refers to a medical procedure used to determine an individual’s immunity to Hepatitis B, Measles, Mumps, Rubella and Varicella.

General Requirements

Unless otherwise provided by law or this policy, no student shall be admitted to attend classes in the District who has not been age appropriately immunized against:

- Poliomyelitis;
- Diphtheria;
- Tetanus;
- Pertussis;
- Red (rubella) measles;
- Rubella;
- Mumps;
- Hepatitis A;
- Hepatitis B;
- Meningococcal disease;
- Varicella (chickenpox); and
- Any other immunization required by the Arkansas Department of Health (ADH).

The District administration has the responsibility to evaluate the immunization status of District students. The District shall maintain a list of all students who are not fully age appropriately immunized or who have an exemption provided by ADH to the immunization requirements based on medical, religious, or philosophical grounds. Students who are not fully age appropriately immunized when seeking admittance shall be referred to a medical authority for consultation.

The only types of proof of immunization the District will accept are immunization records provided by a:

A. Licensed physician;
B. Health department;
C. Military service; or
D. Official record from another educational institution in Arkansas.
The proof of immunization must include the vaccine type and dates of vaccine administration. Documents stating “up-to-date”, “complete”, “adequate”, and the like will not be accepted as proof of immunization. No self or parental history of varicella disease will be accepted. Valid proof of immunization and of immunity based on serological testing shall be entered into the student’s record.

In order to continue attending classes in the District, the student must have submitted:
1) Proof of immunization showing the student to be fully age appropriately vaccinated;
2) Written documentation by a public health nurse or private physician of proof the student is in process of being age appropriately immunized, which includes a schedule of the student’s next immunization;
3) A copy of a letter from ADH indicating immunity based on serologic testing; and/or
4) A copy of the letter from ADH exempting the student from the immunization requirements for the current school year, or a copy of the application for an exemption for the current school year if the exemption letter has not yet arrived.

Students whose immunization records or serology results are lost or unavailable are required to receive all age appropriate vaccinations or submit number 4 above.

Temporary Admittance
While students who are not fully age appropriately immunized or have not yet submitted an immunization waiver may be enrolled to attend school, such students shall be allowed to attend school on a temporary basis only. Students admitted on a temporary basis may be admitted for a maximum of thirty (30) days (or until October 1st of the current school year for the tetanus, diphtheria, pertussis, and meningococcal vaccinations required at ages eleven (11) and sixteen (16) respectively if October 1st is later in the current school year than the thirty (30) days following the student’s admittance). No student shall be withdrawn and readmitted in order to extend the thirty (30) day period. Students may be allowed to continue attending beyond the thirty (30) day period if the student submits a copy of either number 2 or number 4 above.

Students who are in process shall be required to adhere to the submitted schedule. Failure of the student to submit written documentation from a public health nurse or private physician demonstrating the student received the vaccinations set forth in the schedule may lead to the revocation of the student’s temporary admittance; such students shall be excluded from school until the documentation is provided.

The District will not accept copies of applications requesting an exemption for the current school year that are older than two (2) weeks based on the date on the application. Students who submit a copy of an application to receive an exemption from the immunization requirements for the current year to gain temporary admittance have thirty (30) days from the admission date to submit either a letter from ADH granting the exemption or documentation demonstrating the student is in process and a copy of the immunization schedule. Failure to submit the necessary documentation by the close of the thirty (30) days will result in the student being excluded until the documentation is submitted.

Exclusion from School
In the event of an outbreak, students who are not fully age appropriately immunized, are in process, or are exempt from the immunization requirements may be required to be excluded from school in order to protect the student. ADH shall determine if it is necessary for students to be excluded in the event of an outbreak. Students may be excluded for twenty-one (21) days or longer depending on the outbreak. No student excluded due to an outbreak shall be allowed to return to school until the District receives approval from ADH.

Students who are excluded from school are not eligible to receive homebound instruction unless the excluded student had a pre-existing IEP or 504 Plan and the IEP/504 team determines homebound instruction to be in the best interest of the student. To the extent possible, the student’s teacher(s) shall place in the principal’s office a copy of the student’s assignments:
- for the remainder of the week by the end of the initial school day of the student’s exclusion; and
- by the end of each school’s calendar week for the upcoming week until the student returns to school.

It is the responsibility of the student or the student’s parent/legal guardian to make sure that the student’s assignments are collected.

Students excluded from school shall have five (5) school days from the day the student returns to school to submit any homework and to make up any examinations. State mandated assessments are not included in “examinations” and the District has no control over administering state mandated make-up assessments outside of the state’s schedule. Students shall receive a grade of zero for any assignment or examination not completed or submitted on time.

PHYSICAL EXAMINATIONS OR SCREENINGS.

The district conducts routine health screenings such as hearing, vision, and scoliosis due to the importance these health factors play in the ability of a student to succeed in school. The intent of the exams or screenings is to detect defects in hearing, vision, or other elements of health that would adversely affect the student’s ability to achieve to his/her full potential.

The rights provided to parents under this policy transfer to the student when he/she turns eighteen (18) years old.

Except in instances where a student is suspected of having a contagious or infectious disease, parents shall have the right to opt their student out of the exams or screenings by using form 4.41F or by providing certification from a physician that he/she has recently examined the student.
OBJECTION TO PHYSICAL EXAMINATIONS OR SCREENINGS FORM

The consent form shall include authorization to administer the medication and relieve the Board and its employees of civil liability for damages or injuries resulting from the administration of medication to students in accordance with this policy. All signed medication consent forms are to be maintained by the school nurse.

Unless authorized to self-administer, students are not allowed to carry any medications, including over-the-counter medications or any perceived health remedy not regulated by the US Food and Drug Administration, while at school. The parent or legal guardian must bring the student’s medication to the school nurse. When medications are brought to the school nurse, the nurse shall document, in the presence of the parent, the quantity of the medication(s). Each person present shall sign a form verifying the quantity of the medication(s).

Medications, including those for self-administration, must be in the original container and be properly labeled with the student’s name, the ordering provider’s name, the name of the medication, the dosage, frequency, and instructions for the administration of the medication (including times). Additional information accompanying the medication shall state the purpose for the medication, its possible side effects, and any other pertinent instructions (such as special storage requirements) or warnings. Schedule II medications that are permitted by this policy to be brought to school shall be stored in a double locked cabinet.

Students with an individualized health plan (IHP) may be given over-the-counter medications to the extent giving such medications are included in the student’s IHP.

The only Schedule II medications that shall be allowed to be brought to the school are methylphenidate (e.g., Ritalin or closely related medications as determined by the school nurse), dextroamphetamine (Dexedrine), and amphetamine sulfate (e.g. Adderall or closely related medications as determined by the school nurse).

For the student’s safety, no student will be allowed to attend school if the student is currently taking any other Schedule II medication than permitted by this policy. Students who are taking Schedule II medications which are not allowed to be brought to school shall be eligible for homebound instruction if provided for in their IEP or 504 plans.

The district’s supervising registered nurse shall be responsible for creating both on campus and off campus procedures for administering medications.

1) Students who have written permission from their parent or guardian and a licensed health care practitioner on file with the District may:
   1) Self-administer either a rescue inhaler or auto-injectable epinephrine;
   2) Perform his/her own blood glucose checks;
   3) Administer insulin through the insulin delivery system the student uses;
   4) Treat the student’s own hypoglycemia and hyperglycemia; or
   5) Possess on his or her person:
      a) A rescue inhaler or auto-injectable epinephrine; or
      b) the necessary supplies and equipment to perform his/her own diabetes monitoring and treatment functions.

Students who have a current consent form on file shall be allowed to carry and self-administer such medication while:

   • In school;
   • At an on-site school sponsored activity;
   • While traveling to or from school; or
At an off-site school sponsored activity.

A student is prohibited from sharing, transferring, or in any way diverting his/her medications to any other person. The fact that a student with a completed consent form on file is allowed to carry a rescue inhaler, auto-injectable epinephrine, diabetes medication, or combination does not require him/her to have such on his/her person. The parent or guardian of a student who qualifies under this policy to self-carry a rescue inhaler, auto-injectable epinephrine, diabetes medication, or any combination on his/her person shall provide the school with the appropriate medication, which shall be immediately available to the student in an emergency.

Students may be administered Glucagon, insulin, or both in emergency situations by the school nurse or, in the absence of the school nurse, a trained volunteer school employee designated as a care provider, provided the student has:

1. an IHP that provides for the administration of Glucagon, insulin, or both in emergency situations; and
2. a current, valid consent form on file from their parent or guardian.

When the nurse is unavailable, the trained volunteer school employee who is responsible for a student shall be released from other duties during:

A. The time scheduled for a dose of insulin in the student's IHP; and
B. Glucagon or non-scheduled insulin administration once other staff have relieved him/her from other duties until a parent, guardian, other responsible adult, or medical personnel has arrived.

A student shall have access to a private area to perform diabetes monitoring and treatment functions as outlined in the student's IHP.

Emergency Administration of Epinephrine

The school nurse or other school employees designated by the school nurse as a care provider who have been trained and certified by a licensed physician may administer an epinephrine auto-injector in emergency situations to students who have an IHP developed under Section 504 of the Rehabilitation Act of 1973 which provides for the administration of an epinephrine auto-injector in emergency situations.

The parent of a student who has an authorizing IHP, or the student if over the age of eighteen (18), shall annually complete and sign a written consent form provided by the student's school nurse authorizing the nurse or other school employee certified to administer auto-injector epinephrine to the student when the employee believes the student is having a life-threatening anaphylactic reaction.

Students with an order from and a licensed health care provider to self-administer auto-injectable epinephrine and who have written permission from their parent or guardian shall provide the school nurse an epinephrine auto-injector. This epinephrine will be used in the event the school nurse, or other school employee certified to administer auto-injector epinephrine, in good faith professionally believes the student is having a life-threatening anaphylactic reaction and the student is either not self-carrying his/her epinephrine auto-injector or the nurse is unable to locate it.

The school nurse for each District school shall keep epinephrine auto-injectors on hand that are suitable for the students the school serves. The school nurse or other school employee designated by the school nurse as a care provider who has been trained and certified by a licensed physician may administer auto-injector epinephrine to those students who the school nurse, or other school employee certified to administer auto-injector epinephrine, in good faith professionally believes is having a life-threatening anaphylactic reaction.

The school shall not keep outdated medications or any medications past the end of the school year. Parents shall be notified ten (10) days in advance of the school's intention to dispose of any medication. Medications not picked up by the parents or legal guardians within the ten (10) day period shall be disposed of by the school nurse in accordance with current law and regulations.

PRIVACY OF STUDENTS’ RECORDS/ DIRECTORY INFORMATION

Except when a court order regarding a student has been presented to the district to the contrary, all students’ education records are available for inspection and copying by the parent of the student only if the student is under the age of eighteen (18). After the age of eighteen (18), the student may have access to and the responsibility for disclosing information in emergency situations.

The district shall receive written permission before releasing education records to any agency or individual not authorized by law to receive and/or view the education records without prior parental permission. The District shall maintain a record of requests by such agencies or individuals for access to, and each disclosure of, personally identifiable PII from the education records of each student. Disclosure of education records is authorized by law to school officials with legitimate educational interests. A personal record kept by a school staff member is not considered an education record if it meets the following tests:

- it is in the sole possession of the individual who made it;
- it is used only as a personal memory aid; and
- information contained in it has never been revealed or made available to any other person, except the maker’s temporary substitute.

For the purposes of this policy a school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school board; a person or company with whom the school has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

The District discloses personally identifiable information from an education record to appropriate parties, including parents, in connection with an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals. The superintendent or designee shall determine who will have access to and the responsibility for disclosing information in emergency situations.

When deciding whether to release personally identifiable information in a health or safety emergency, the District may take into account the totality of the circumstances pertaining to a threat to the health or safety of a student or other individuals. If the District determines that there is an articulable and significant threat to the health or safety of a student or other individuals, it may disclose information from education records to any person whose knowledge of the information is necessary to protect the health or safety of the student or other individuals.

For purposes of this policy, the Ozark School District does not distinguish between a custodial and noncustodial parent, or a non-parent such as a person acting in loco parentis or a foster parent with respect to gaining access to a student’s records. Unless a court order restricting such access has been presented to the district to the contrary, the fact of a person’s status as parent or guardian, alone, enables that parent or guardian to review and copy his child’s records.

If there exists a court order which directs that a parent not have access to a student or his records, the parent, guardian, person acting in loco parentis, or an agent of the Department of Human Services must present a file-marked copy of such order to the building principal and the superintendent. The school will make good-faith efforts to act in accordance with such court order, but the failure to do so does not impose legal liability upon the school. The actual responsibility for enforcement of such court orders rests with the parents or guardians, their attorneys and the court which issued the order.

A parent or guardian does not have the right to remove any material from a student’s records, but such parent or guardian may challenge the accuracy of a record. The right to challenge the accuracy of a record does not include the right to dispute a grade, disciplinary rulings, disability placements, or other determinations, which must be done only through the appropriate teacher and/or administrator, the decision of whom is final. A challenge to the accuracy of material contained in a student’s file must be initiated with the building principal, with an appeal available to the Superintendent or his designee. The challenge shall clearly identify the part of the student’s record the parent wants changed and specify why he/she believes it is inaccurate or misleading. If the school determines not to amend the record as requested, the school will notify the requesting parent or student of the decision and inform them of their right to a hearing regarding the request for amending the record. The parent or eligible student will be provided information regarding the hearing procedure when notified of the right to a hearing.

Unless the parent or guardian of a student (or student, if above the age of eighteen [18]) objects, directory information about a student may be made available to the public, military recruiters, post-secondary educational institutions, prospective employers of those students, as well as school publications such as annual yearbooks and graduation announcements. “Directory information” includes, but is not limited to, a student’s name, address, telephone number, electronic mail address, photograph, date and place of birth, dates of attendance, his/her placement on the honor roll (or the receipt of other types of honors), as well as his/her participation in school clubs and extracurricular activities, among others. If the student participates in inherently public activities (for example, basketball, football, or other interscholastic activities), the publication of such information will be beyond the control of the District. “Directory information” also includes a student identification (ID) number, user ID, or other unique personal identifier used by a student for purposes of accessing or communicating in electronic systems and a student ID number or other unique personal identifier that is displayed on a student’s ID badge, provided the ID cannot be used to gain access to education records except when used in conjunction with one or more factors that authenticate the user’s identity, such as a personal identification number (PIN), password or other factor known or possessed only by the authorized user. A student’s name and photograph will only be displayed on the district or school’s web page(s) after receiving the written permission from the student’s parent or student if over the age of 18.
The form for objecting to making directory information available is located in the back of the student handbook and must be completed and signed by the parent or age-eligible student and filed with the building principal’s office no later than ten (10) school days after the beginning of each school year or the date the student is enrolled for school. Failure to file an objection by that time is considered a specific grant of permission. The district is required to continue to honor any signed-opt out form for any student no longer in attendance at the district.

The right to opt out of the disclosure of directory information under Family Educational Rights and Privacy Act (FERPA) does not prevent the District from disclosing or requiring a student to disclose the student’s name, identifier, or institutional email address in a class in which the student is enrolled.

Parents and students over the age of 18 who believe the district has failed to comply with the requirements for the lawful release of student records may file a complaint with the U.S. Department of Education at:

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA)

The Family Educational Rights and Privacy Act (FERPA) is a Federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education.

FERPA gives parents certain rights with respect to their children’s education records. These rights transfer to the student when he or she reaches the age of 18 or attends a school beyond the high school level. Students to whom the rights have transferred are “eligible students.”

Parents or eligible students have the right to request that a school correct records which they believe to be inaccurate or misleading. If the school decides not to amend the record, the parent or eligible student has the right to place a statement with the record setting forth his or her view about the contested information.

Generally, schools must have written permission from the parent or eligible student in order to release any information from a student’s education record. However, FERPA allows schools to disclose those records, without consent, to the following parties or under the following conditions:

School officials with legitimate educational interest;
Other schools to which a student is transferring;
Specified officials for audit or evaluation purposes;
Appropriate parties in connection with financial aid to a student;
Organizations conducting certain studies for or on behalf of the school;
Accrediting organizations;
To comply with a judicial order or lawfully issued subpoena;
Appropriate officials in cases of health and safety emergencies; and
State and local authorities, with a juvenile justice system, pursuant to specific State law.

Schools may disclose, without consent, “directory information” such as a student’s name, address, telephone number, date and place of birth, honors and awards, and dates of attendance. However, schools must tell parents and eligible students about directory information and allow parents and eligible students a reasonable amount of time to request that the school not disclose directory information about them. Schools must notify parents and eligible students annually of their rights under FERPA.

Definition
For the purposes of this policy, “electronic device” means anything that can be used to transmit or capture images, sound, or data.

The District makes electronic device(s) and/or electronic device Internet access available to students, to permit students to perform research and to allow students to learn how to use electronic device technology. Use of district electronic devices is for educational and/or instructional purposes only. Student use of electronic device(s) shall only be as directed or assigned by staff or teachers; students are advised that they enjoy no expectation of privacy in any aspect of their electronic device use, including email, and that monitoring of student electronic device use is continuous.

No student will be granted Internet access until and unless an Internet and electronic device use agreement, signed by both the student and the parent or legal guardian (if the student is under the age of eighteen [18]) is on file. The current version of the Internet and electronic device use agreement is incorporated by reference into board policy and is considered part of the student handbook.

Misuse of Internet
The opportunity to use the District’s technology to access the Internet is a privilege and not a right. Students who misuse electronic devices or Internet access in any way will face disciplinary action, as specified in the student handbook and/or Internet safety and electronic device use agreement. Misuse of the Internet includes:

BRING YOUR OWN DEVICE

The Ozark School District has adopted a Bring Your Own Device (BYOD) policy for the Ozark High School, Ozark Junior High, and the Ozark Middle School. This policy will allow students to bring many of their own technology devices to school for use in our classrooms. We will now be incorporating the use of such items as laptops, tablets, netbooks and other devices with browsing capabilities for educational purposes only. Similar to other personally owned items, the district is not liable for the loss, damage, misuse, or theft of personally owned devices brought to school.

This notification is to inform and guide you through this new opportunity. Please note that students are never required to bring in outside technology to school. All students will continue to be able to utilize our school equipment. No student will be left out of the instruction process.

Expectations:

1. Students will only use appropriate technology at teachers’ discretions.
2. Students will only use appropriate educational applications on their device (i.e. not games and/or non-school related tasks and functions).
3. Students are not to call, text message, email, or electronically communicate with others from their personal device, including other students, parents, guardians, friends, and family during the school day without Faculty approval.
4. Students are permitted to access only the school’s intranet through school owned devices, not privately owned devices. Privately owned devices may only access the BYOD network for Internet usage.

Students utilizing this opportunity to its fullest capacity within school expectations will find numerous benefits to instruction, resources, completion of assignments, and personal organization.

Students not following expectations for use of personal devices will face school disciplinary measures and lose the privilege to utilize personal devices in school for a period of time commensurate with the infraction.

ACCEPTABLE STUDENT USE OF PERSONALLY OWNED DEVICES

The School Board adopts this policy in order to maintain a safe and secure environment for students and employees.

A personally owned device shall include all existing and emerging technology devices that can take photographs; record audio or video; input text; upload and download media; and transmit or receive messages or images. Examples of a personally owned device shall include but is not limited to: MP3 players and iPods; iPads, Nooks, Kindles, and other tablet PCs; laptops and netbook computers; personal digital assistants (PDAs); cell phones and smart phones such as Blackberry, iPhone, or Droid, as well as any device with similar capabilities.

Educational purposes include classroom activities, career development, and communication with experts, homework, and limited high quality self-discovery activities. Students are expected to act responsibly and thoughtfully when using technology resources. Students bear the burden of responsibility to inquire with school administrators and/or teachers when they are unsure of the permissibility of a particular use of technology prior to engaging in the use.

Inappropriate communication includes, but is not limited to, the following: obscene, profane, lewd, vulgar, rude, inflammatory, threatening, or disrespectful language or images typed, posted, or spoken by students; information that could cause damage to an individual or the school community or create the danger of disruption of the academic environment; personal attacks, including prejudicial or discriminatory attacks; harassment (persistently acting in a manner that distresses or annoys another person) or stalking of others; knowingly or recklessly posting false or defamatory information about a person or organization; and communication that promotes the destruction of property, including the acquisition or creation of weapons or other destructive devices. If a student is told to stop sending communications, that student must cease the activity immediately.

Examples of an unacceptable device in this policy shall include but is not limited to gaming devices or consoles, laser pointers, routers, and televisions.

Personally owned devices are permitted for use during the school day for educational purposes and/or in approved locations only.

The District shall not be liable for the loss, damage, misuse, theft of any personally owned device brought to School. The District does not provide any technology support for personal devices.

The District reserves the right to monitor, inspect, copy, and review a personally owned device or file when administration has a reasonable suspicion that a violation has occurred.

Students may not utilize any technology to harass, threaten, demean, humiliate, intimidate, embarrass, or annoy their classmates or others in their community. This is unacceptable student behavior known as cyber bullying and will not be tolerated. Any cyber bullying that is determined to disrupt the safety and/or well-being of the school is subject to disciplinary action. Students must be aware of appropriateness of communications when using district or personally owned devices. Inappropriate communication is prohibited in any public messages, private messages, and material posted online by students.

The Board expressly prohibits use of personally owned devices in locker rooms, restrooms, and nurse’s offices.

Students are not permitted to use any electronic device to record audio or video media or take pictures of any student or staff member without their permission. The distribution of any unauthorized media may result in discipline including but not limited to suspension, criminal charges, and expulsion.

If allowed to access the Internet via personal wireless plans such as 4G service, students and parents understand that the district does not monitor or control in any way student activities.

All district students shall review this policy and associated technology guidelines before students utilize any school and/or personally owned devices. The District reserves the right to restrict student use of district owned technologies and personally owned devices on school property or at school-sponsored events.
BRING YOUR OWN DEVICE PERMISSION FORM

Any parent who wishes that their child use a personally owned electronic device within the Ozark School District must read and sign this agreement and submit to the classroom teacher. Parents and Students who sign this form agree to the policies stated above as well as:

1. The student takes full responsibility for his or her device and keeps it with him or herself at all times. The school is not responsible for the security of the device.

2. The student is responsible for the proper care of their personal device, including any costs of repair, replacement or any modifications needed to use the device at school.

3. The school reserves the right to inspect a student’s personal device if there is reason to believe that the student has violated Board policies, administrative procedures, school rules or has engaged in other misconduct while using their personal device.

4. Violations of any Board policies, administrative procedures or school rules involving a student’s personally owned device may result in the loss of use of the device in school and/or disciplinary action.

5. The student must comply with teachers’ request to shut down the device or blank/close the screen.

6. The student may not use the devices to record, transmit or post photos or video of a person or persons on campus. Nor can any images or video recorded at school be transmitted or posted at any time without the express permission of a teacher.

7. The Ozark School District gives no warrant and does not provide technology support for BYOD.

8. The student should only use their device to access relevant sites.

(Parent/guardian/custodian signature) ____________________________ (Date) ____________

Consent form must be turned into principal’s office before student will be allowed to participate in extracurricular activities or drive/park on Ozark School District property.
The Ozark School District recognizes that chemical abuse or misuse is a significant health problem for students, detrimentally affecting overall health, behavior, learning ability, reflexes, and the total development of each individual. The Ozark Board of Education is determined to help students by providing another option for them to say “No”. Chemical abuse includes, but is not limited to, the use of illegal drugs, alcohol, and the misuse of the legal drugs and medications.

Purpose of a Chemical Abuse Policy:
1. To allow the students of Ozark Schools to know that the school is concerned about their total well-being. The School District is interested in helping the students who may be having problems.
2. To emphasize concerns for the health of students in areas of safety while they are participating in activities as well as the long-term physical and emotional effects of chemical use on their health.
3. To confirm and support state law which restrict the use of such mood-altering chemicals.
4. To assist students of Ozark Schools to resist the peer pressure that directs them toward the abuse or misuse of chemical substances.
5. To establish standards of conduct for students of Ozark Schools who are considered leaders among their peers.
6. To work cooperatively with parents by assisting them in keeping their children free from mood-altering chemicals.
7. To assist students who need to be referred for assistance or evaluation regarding their use of illegal drugs.
8. To deter chemical abuse or misuse by all students through the use of random drug testing.

Scope
The provisions of this policy apply to students in Ozark Schools in grades seven through twelve. No students will be allowed to participate in school activities (any activity outside the regular curriculum) or park on campus until the consent form has been signed by both student and custodial parent/legal guardian and returned to the principal. Positive screening results are considered cumulative and follow the student for the duration of enrollment in Ozark School District.

Definition
Illegal Drugs are defined as any substance, including alcohol, considered illegal by Arkansas Statutes or which the Food and Drug Administration control unless prescribed by a licensed physician.

Prescription Medication
The existence of lawfully prescribed medication in the student’s sample is not a violation of this policy when taken in accordance with a physician’s recommendation or prescription to a specific student. Some over-the-counter medications may have similarities to unlawful drugs when tested. Students who are taking prescription medication may provide a copy of the prescription or a doctor’s verification in a sealed envelope to school personnel at the time the sample is collected. The specific name of over-the-counter medication should also be disclosed to the school official. Students who refuse to provide verification and test positive will be subject to the actions specified in this policy for “positive test”.

Consent Form
Students and parents/guardians will be strongly encouraged to sign a consent form to the random testing. The form must be co-signed by the student’s custodial parent/legal guardian. No student will be allowed to participate in any school activity (any activity outside the regular curriculum) or park on school district property until the consent form has been signed by both student and custodial parent/legal guardian and returned to the principal. Consent forms for students participating in fall sports or extracurricular activities must be signed prior to physical examinations. All other students must sign the consent form during the first two weeks of school. Students moving into the district during the school year must sign the consent form during the first two weeks of enrollment. No student will be allowed to sign the consent form after these dates.

Selection Process
While students are in school, they will be subject to random selection for testing. Particular days will be selected for testing. If a student is selected for testing but is absent on the day, he/she will be tested on the next test date. The number of names drawn will be no less the (2%) nor greater than (15%) of the students in grades seven through twelve. A urinalysis will be the method utilized to test for the presence of chemicals in the body. All students selected must report to the designated testing site.

Testing Agency
The district will choose a qualified agency for the purpose of processing samples and maintaining privacy with respect to test results and related matters.

Cost
The cost of the test to be given during random selection will be paid by the district. Any test administered to a student to regain eligibility will be at the district’s expense.

Refusal to Consent to Testing
Students not consenting to be tested (in the random pool) are allowed to join clubs or organizations but are not allowed to attend after school meetings, participate in any activities, or park on campus.

Refusal to Submit to Testing
Any participant who refused to submit to random drug testing and/or retesting is considered having tested positive.

Testing Procedure
All test results from the laboratory will be communicated to the superintendent or designee. All urine specimens will be taken at a designated restroom. Any student who is requested to provide a urine specimen will be directed to the collection site where the student will complete the necessary forms. Students who test positive will be required to sign additional consent forms.

The following precautions will be taken, as appropriate, at the collection site:
1. The examinee will be positively identified.
2. The observer will ask the individual to remove any unnecessary outer garments (i.e., coat, jacket, etc.) that might conceal items or substances that could be used to tamper with or alter the urine specimen. All personal belongings (i.e., purse, backpack, etc.) must remain with the outer garments. The observer will note any unusual behavior or appearance.
3. The student will not be outside of the presence of the observer and not have access to faucets, soap dispensers, or cleaning agents until after the specimen has been provided and sealed.
4. The student will be allowed to provide the specimen in a stall or other partitioned area that allows for individual privacy. After the specimen has been provided, the student should leave the stall.

5. At the collection site, toilet bluing agents will be placed in the toilet tanks whenever possible. No other source of water will be available in the enclosure where urination occurs.

6. If a student fails to provide the necessary amount of urine for valid specimen, the student will be given reasonable amounts of water for drinking and extra time to produce an adequate sample. During this time the student will remain in the vicinity of the collection area and under the observation of the district staff.

7. Immediately after collection, the observer will check the temperature of the specimen and inspect the specimen for color and signs of contaminants.

8. Both the observer and student being tested will keep the specimen in view at all times prior to its being sealed and labeled.

Analysis Process
Testing protocol for chemical screen involves on-site collection of urine samples and immediate delivery to a SAMSHA certified laboratory for testing and GC/MS confirmation if needed with results provided to the school superintendent or his designee. Alcohol testing will be performed by a breath sample with confirmation if needed. The confirmation will be 15 minutes after the initial breath sample.

Results and Notification
Test results will be reported to the superintendent or his designee. All reports will be in writing. All specimens testing negative on the initial test or negative on the confirmation test will be reported as negative. Only specimens confirmed as positive will be reported as positive for a specific drug(s).

Records
The superintendent or his designee in a separate, locked file will maintain all records concerning chemical abuse testing. The records will not be kept in a student's regular file. Only the superintendent or his designee will have access to the files. The files on each student will be destroyed upon graduation or two years after termination of enrollment. A student and the student's custodial parents, legal guardians may obtain a copy of his chemical abuse upon written request.

First Positive Test
Upon receipt of a positive test result for any student, a custodial parent or legal guardian will be notified and a meeting will be scheduled with the superintendent or his designee, the student, the custodial parent or legal guardian, the student's principal, the student's head coach or sponsor.

Counseling/rehabilitation for the student will be strongly recommended for the student who tests positive. A referral/resource list will be made available to the student and parent/legal guardian. Any counseling/rehabilitation service costs will be the responsibility for the student and/or parent. The student will be placed on probation for thirty days. If there are not thirty days left in the school year, the thirty-day period will carry forward to the following school year. During the probation time, the student will not be allowed to participate and/or attend any curricular or extracurricular activities held on the Ozark Public School campuses or under the control of the Ozark School District which occur outside the regular academic school day as defined in each school's handbook. The student may not drive or park on campus.

Students participating in a sport or activity that requires a physical must have doctor's approval to continue practicing during the probationary period. In order to regain eligibility after the thirty-day probationary period, the student must be tested again at the district's expense and a written copy of the results will be given to the superintendent or his designee. The test will be negative or the probation will be lifted. If the test is positive, the student will not be allowed to participate in or attend extracurricular activities or park on campus for one calendar year. A positive retest at the end of thirty-day probation period will be considered a second positive test. Exception: A student must be retested on day thirty-one. However, certain chemicals that take more than thirty days to leave the student's system will be considered differently if a doctor's written opinion details said residual effects of that particular substance.

Second Positive Test
For the second positive test, the student will not be allowed to participate in or attend extracurricular activities or park on campus for one calendar year from the date of the second positive test. To regain eligibility for participation in activities, a student must have a negative Chemical Screening Test. This will be administered by the district's chemical screening company and at the district's expense.

Third Positive Result
For the third positive result, the student will be permanently suspended from participating in or attending any activity program and parking on campus for the remainder of his enrollment with the school. A third positive screen could come from third positive test from the random pool or a result of a re-screen at the end of a probation period.

Unusual Circumstances
Any student under probation for a positive test may not avoid the consequences by transferring to another school or home schooling during the time of probation. A student who transfers during the probationary period will have his/her time put on hold at the point of departure from the Ozark Schools and resume upon his/her return. For example, if a student under a 30-day probation leaves after 15 days served and returns to the Ozark Schools at some later date, he/she will still have 15 days of probation remaining.

Nature of Policy
No student will be penalized academically for testing positive for illegal drugs or alcohol as a result of the random drug test. The results of any drug test pursuant to this policy will not be documented in any student's academic records.

Other Disciplinary Measures
The district, by accepting this policy is not precluded from utilizing other disciplinary measures set forth in the student handbook and this policy does not preclude the district from taking disciplinary procedure and resulting action when founded upon reasonable belief and suspicion that a student has participated in drug-related activities.

Counseling/rehabilitation is recommended for the student who tests positive. Any counseling/rehabilitation service cost will be the responsibility to the parent/guardian. The following are some agencies that provide counseling/rehabilitation services. In supplying the list, the Ozark School Board, its agents, or employees take no responsibility in the selection of which agency the parent decides to use. The final decision to seek counseling for the student and the cost of counseling/rehabilitation shall be the responsibility of the parent/guardian.
RESIDENCE REQUIREMENTS

Definitions:

“Reside” means to be physically present and to maintain a permanent place of abode for an average of no fewer than four (4) calendar days and nights per week for a primary purpose other than school attendance.

“Resident” means a student whose parents, legal guardians, persons having legal, lawful control of the student under order of a court, or persons standing in loco parentis reside in the school district.

“Residential address” means the physical location where the student’s parents, legal guardians, persons having legal, lawful control of the student under order of a court, or persons standing in loco parentis reside. A student may use the residential address of a legal guardian, person having legal, lawful control of the student under order of a court, or person standing in loco parentis only if the student resides at the same residential address and if the guardianship or other legal authority is not granted solely for educational needs or school attendance purposes.

The schools of the District shall be open and free through the completion of the secondary program to all persons between the ages of five (5) and twenty one (21) years whose parents, legal guardians, or other persons having lawful control of the person under an order of a court reside within the District1 and to all persons between those ages who have been legally transferred to the District for educational purposes.

Any person eighteen (18) years of age or older may establish a residence separate and apart from his or her parents or guardians for school attendance purposes.

In order for a person under the age of eighteen (18) years to establish a residence for the purpose of attending the District’s schools separate and apart from his or her parents, guardians, or other persons having lawful control of him or her under an order of a court, the person must actually reside in the District for a primary purpose other than that of school attendance. However, a student previously enrolled in the district who is placed under the legal guardianship of a noncustodial parent living outside the district by a custodial parent on active military duty may continue to attend district schools2. A foster child who was previously enrolled in a District school and who has had a change in placement to a residence outside the District, may continue to remain enrolled in his/her current school unless the presiding court rules otherwise3.

Under instances prescribed in A.C.A. § 6-18-203, a child or ward of an employee of the district or of the education coop to which the district belongs may enroll in the district even though the employee and his/her child or ward reside outside the district.

Children whose parent or legal guardian relocates within the state due to a mobilization, deployment, or available military housing while on active duty in or serving in the reserve component of a branch of the United States Armed Forces or National Guard may continue attending school in the school district the children were attending prior to the relocation or attend school in the school district where the children have relocated. A child may complete all remaining school years at the enrolled school district regardless of mobilization, deployment, or military status of the parent or guardian.

STUDENT PROMOTION AND RETENTION

A disservice is done to students through social promotion and is prohibited by state law. The District shall, at a minimum, evaluate each student annually in an effort to help each student who is not performing at grade level. Parents or guardians shall be kept informed concerning the progress of their student(s). Notice of a student’s possible retention or required retaking of a course shall be included with the student’s grades sent home to each parent/guardian or the student if 18 or older. Parent-teacher conferences are encouraged and may be held as necessary in an effort to improve a student’s academic success.

At least once each semester, the parents and teacher(s) of a student in kindergarten through eighth (8th) grade shall be notified in writing of the student’s independent grade-level-equivalency in reading.

Any grades, course credits, and/or promotions received by a student while enrolled in the Division of Youth Services system of education shall be considered transferable in the same manner as those grades, course credits, and promotions from other accredited Arkansas public educational entities.

Promotion or retention of students, or their required retaking of a course shall be primarily based on the following criteria. If there is doubt concerning the promotion or retention of a student or his/her required retaking of a course, a conference shall be held before a final decision is made that includes the following individuals:

- The building principal or designee;
- The student’s teacher(s);
- School counselor
- A 504/special education representative (if applicable); and
- The student’s parents.

The conference shall be held at a time and place that best accommodates those participating in the conference. The school shall document participation or non-participation in required conferences. If the conference attendees fail to agree concerning the student’s placement or receipt of course credit, the final decision shall rest with the principal or the principal’s designee.

Beginning with the 2018-2019 school year, each student2 shall have a student success plan (SSP) developed by school personnel in collaboration with the student’s parents and the student that is reviewed and updated annually. A student’s SSP shall use multiple academic measures to personalize learning in order for students to achieve their grade-level expectations and individual growth. The SSP will identify if the student is in need of additional support or acceleration. Academic measures to be used in creating and updating a student’s SSP shall include, but are not limited to:

- Statewide student assessment results;
- Subject grades;
- Student work samples; and
- Local assessment scores.

By the end of grade eight (8), the student’s SSP shall:
Guide the student along pathways to graduation;
Address accelerated learning opportunities;
Address academic deficits and interventions; and
Include college and career planning components.

Based on a student’s score on the college and career assessment:

- The student’s SSP will be updated in order to assist the student with college and career readiness skills, course selection in high school, and improved academic achievement; and
- Provide a basis for counseling concerning postsecondary preparatory programs.

An SSP shall be created:

1. By no later than the end of the school year for a student in grade eight (8) or below who enrolls in the District during the school year; or
2. As soon as reasonably possible for a student in grade nine (9) or above who enrolls in the District at the beginning or during the school year.

A student’s individualized education program (IEP) may act in the place of the student’s SSP if the IEP addresses academic deficits and interventions for the student’s failure to meet standards-based academic goals at an expected rate or level and includes a transition plan that addresses college and career planning components.

Promotion/retention or graduation of students with an IEP shall be based on their successful attainment of the goals set forth in their IEP.

In addition to the possibility of retention or withholding of course credit, students who either refuse to sit for a State assessment or attempt to boycott a State assessment by failing to put forth a good faith effort on the assessment as determined by the assessment administrator/proctor, or whose parents do not send their student to school on the dates the assessments are originally administered or scheduled as make-up days shall not be permitted to participate in any non-curriculum related extracurricular activity, including school dances, prom, homecoming, senior events, and may be prevented from walking or participating in graduation exercises. The student shall remain ineligible to participate until the student takes the same or a following State mandated assessment, as applicable, or completes the required remediation for the assessment the student failed to put forth a good faith effort on. The Superintendent or designee may wave this paragraph’s provisions when the student’s failure was due to exceptional or extraordinary circumstances. Students falling under the provisions of this paragraph shall be permitted to attend curriculum related field trips occurring during the school day.

**ARKANSAS ACTIVITIES ASSOCIATION**

In addition to the foregoing rules, the district shall abide by the rules and regulations of the Arkansas Activities Association (AAA) governing interscholastic activities. AAA provides catastrophic insurance coverage for students participating in extracurricular activities who are enrolled in school. As a matter of District policy, no student may participate in an extracurricular activity unless he or she is enrolled in a district school, to ensure all students are eligible for AAA catastrophic insurance.
